

The Capacity Building Initiative for Transparency - Global Support Programme

Project Work Plan for 2023: global, regional and national
activities on capacity building for transparency for Asia

Inception Workshop
22 February 2023

Approach for the development of the AWP-2023

- **Development** of the **Work Plan for 2023 for Asia** is based on:
 - Key findings and priorities determined in the rapid assessment for transparency
 - Bilateral online meetings with country representatives (will be carried out)
 - Online meetings with international transparency partners (still ongoing)
 - Desk-top study (UNDP and UNEP, NCs and BURs, NDCs)
- The Work Plan is a **live document** with the possibility to merge the events with other networks and synchronize with activities of other partners
- **All dates** for the events **are tentative** and dependent on the resources
- **The Work Plan** envisages only those **activities** which are planned **for 2023**
- Additional activities might be added based on ad-hoc requests from countries
