

Sharing Best Practices on Gender and Climate Reporting in Central Asia and the Caucasus

-- Virtual webinar --

Time: **14:00 – 15:30 (Tashkent)** | Date: **April 27, 2023** | Format: **online**

Background

The recent decisions of COPs under the UNFCCC advise the Parties to integrate gender into climate policy and undertake proactive measures to account gender aspects in climate reporting and assure that gender is adequately reflected in MRV. At COP-25 Parties agreed a **5-year enhanced Lima work programme on gender and its gender action plan** ([Decision 3/CP.25](#)). At COP-26 Parties adopted the [Decision 20/CP.26](#) which includes among other, aspects of the review of the Gender Action Plan implementation. At COP-27 Parties concluded the **intermediate review of the implementation of the gender action plan** that started at SB-56 in June 2022. The review included amendments to some deliverables and three new activities in priority areas C and E ([Decision 24/CP.27](#)).

The topic of gender mainstreaming into transparency and climate reporting is becoming very relevant and seriously attract attention of the experts and policy makers in Central Asia and the Caucasus. Having in mind that the countries of the region collected many good practices on mainstreaming gender in climate reporting, the CBIT-GSP project intends to organize a virtual webinar with the aim to share the national practices and experiences and discuss the best way of integrating or accounting gender in their national policies and reports.

Objective

The main objective of the virtual webinar is to further **support knowledge sharing** on the **integration of gender into climate policy and reporting** by introducing *practical examples from the countries of Central Asia and the Caucasus*. The participants will have an opportunity to share their progress on gender and climate change status as well as to discuss the challenges and opportunities towards a more transparent and sustainable way of data collection and reporting on gender and climate change.

Target Audience and Language

The virtual webinar will gather Coordinators of National Communications and Biennial Update Reports, senior experts from the national agencies dealing with climate policy and MRV/ETF and experts dealing with gender, greenhouse gas inventory, adaptation and impacts, climate finance and NDC tracking. The webinar will be held **in Russian**.

Duration and Registration

It is expected that the meeting will last up to **1,5 hours** with sufficient timing dedicated to discussion and Q&A sessions.
