

# institutional arrangement for Data Collection in Vanuatu

Nelson Kalo  
Senior Mitigation Officer  
Department of Climate Change  
Vanuatu

# GHG EMISSION SECTORS IN VANUATU AS PER THE IPCC 2006 GOOD PRACTICE GUIDELINE

- Energy
- Waste
- AFOLU
- **IPPU** not included because very minimal activity is done on this area (Subsectors in the IPCC software is not so applicable to Vanuatu)

# DATA SOURCES IN VANUATU

- Data are sourced from respective data institutions
- AFOLU Data**
  - ✓ Livestock population – Department of Livestock/Vanuatu National Statistics Office (VNSO)
  - ✓ National Forestry Inventory – Department of Forestry
  - ✓ Agriculture data – From Department of Agriculture and Rural Development/VNSO
- Energy data**
  - ✓ Pacific Petroleum (Import Bulk Data of Petroleum products)
  - ✓ Origin gas – LPG
  - ✓ Department of Energy
  - ✓ Land Transport Authority
  - ✓ Utility Regulator Authority (URA)
- Waste Data (Waste Water & Municipal Solid Waste)**
  - Department of Environmental Protection and Conservation (DEPC)
  - Port Vila Municipality
  - Luganville Municipality

# INSITUTIONAL ARRANGEMENT ON DATA COLLECTION

- **National Advisory Board (NAB) on CC&DRR**
- Within Government – Request for specific data
- Request for Data to the Private entities once needed (for its purposes only)
- Memorandum of Understanding (Data Sharing)
- Domestic **MRV** system (NDC tracking), MRV – NFI & Forest Change

# CHALLENGES ON DATA USE & SHARING

- Outdated data from some institutions
- Sharing data may be a issue for many (Business integrity)
- Lack of institutional and Human resource capacity within data institutions in collecting and updating data

# WAY FORWARDS ADDRESSING CHALLENGES

- Formalize data sharing within different data institutions and the Department of Climate Change through MOU/MOA
- CBIT project will support addressing this gaps ((Establishment of the National ETF body, MOU, Amend MRV tools to incorporate latest decisions on reporting, data archiving templates + others)
- Working on resourcing the different departments within their structures to have data officer or embedded as part of the relevant Job Description (JD) – Data collection and sharing
