PROGRAMME

CBIT-GSP
CLIMATE TRANSPARENCY

CBIT-GSP Objectives

Support developing countries **in the transition to the BTRs**, and with the submission of NCs and last BURs

Provide the global transparency community with a **one-stop shop for transparency** (Online Platform)

Help countries with **mainstreaming gender considerations** in climate transparency

Gender and Knowledge

Gender

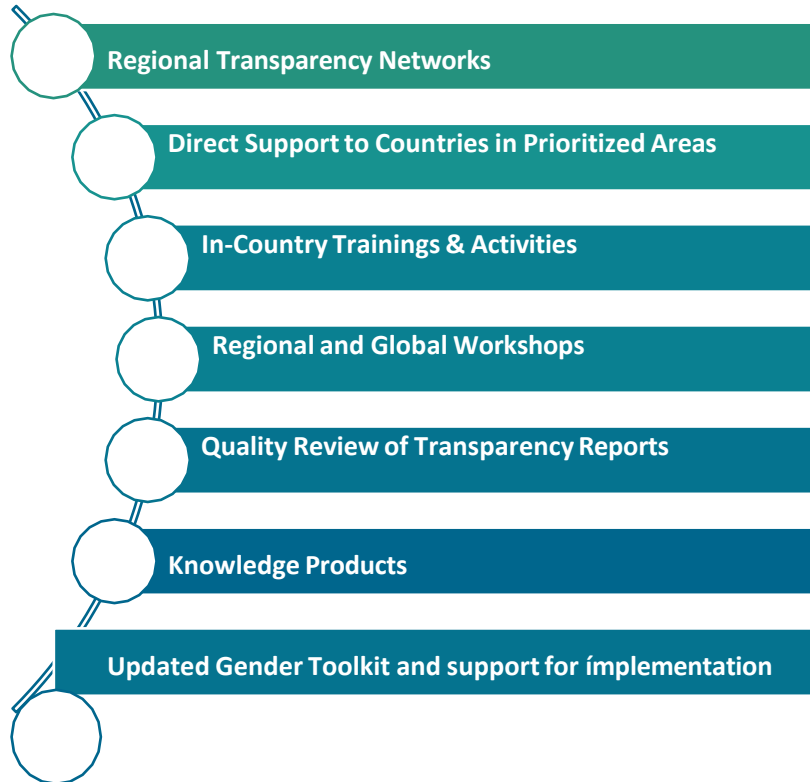

- Update of the Gender Toolkit
- Trainings
- Assistance to countries in integrating the UNFCCC Gender Action Plan into enhanced transparency frameworks

Knowledge Products

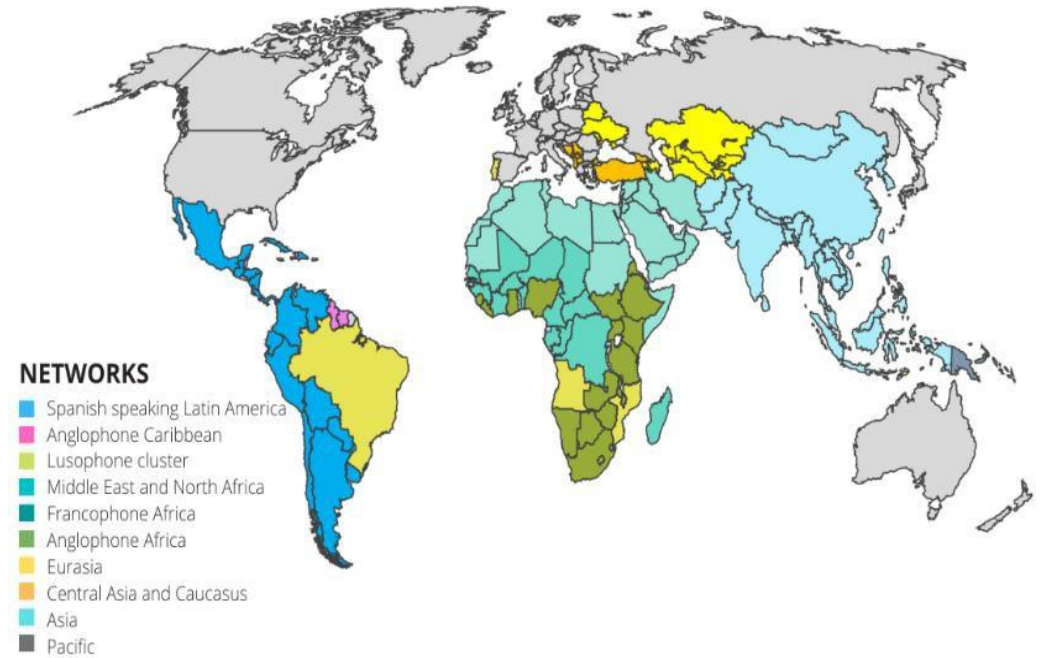

- Different knowledge products: good practice briefs, guidance documents, summaries of important COP and SB decisions
- Guidance material is needs-based
- Close coordination with other partners to avoid duplication of products
- Different webinars, e.g., Closing Conversations with CBIT Countries

CBIT-GSP Support Modalities

Main Mediums of Support

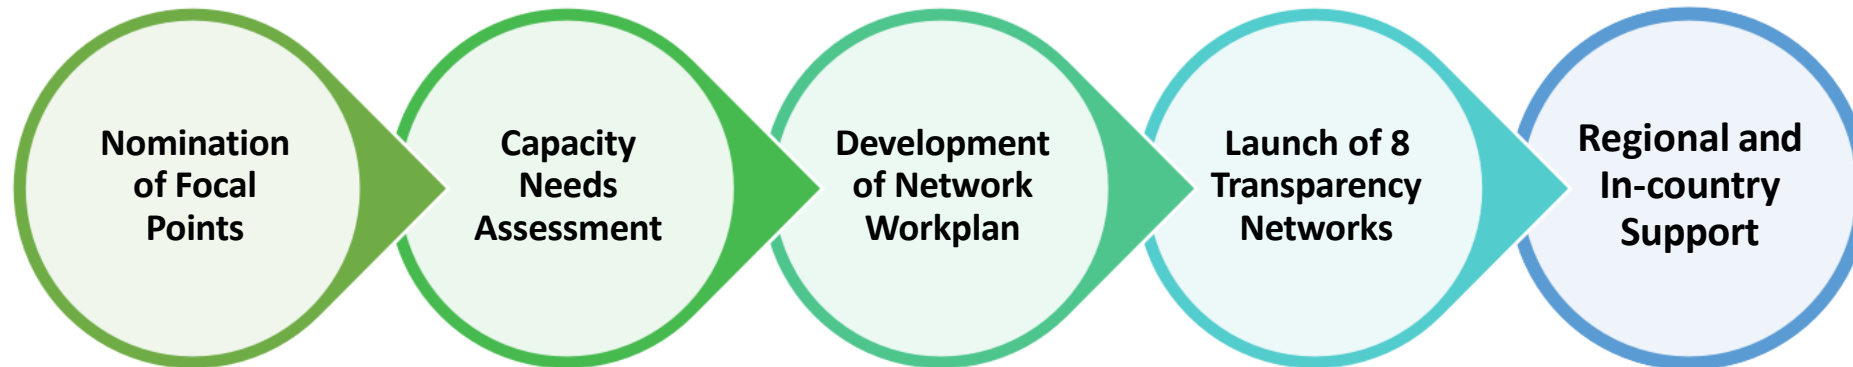

Regional Transparency Networks

CBIT-GSP : Networks

Main medium to provide support and foster south-south collaboration and knowledge exchange

- Countries nominated Focal Points for the project and the different ETF reporting areas (GHG inventory, NDC tracking, adaptation, and support needed and received)

- Comprehensive survey with all countries in 8 network to determine their needs and priorities

- Development of the Networks workplans based on capacity needs assessment

- Launch of the Networks with countries and collecting feedback on workplans

- Implementation of activities, both at regional and national activities, according to workplans and incoming support requests by countries

The Climate Transparency Platform in a Nutshell

CBIT Global Coordination Platform

Global Support Programme

Funded by: Implemented by: Executed by:

Climate Transparency Platform

Objective of the Climate Transparency Platform

Provide countries and support providers with a one-stop knowledge clearing house on climate transparency

1 - Transparency project information

Ongoing and upcoming in-country, regional and global initiatives through a project database.

3 - Transparency resources

A library of practices, methodologies and guidance, including Paris Rulebook and CGE.

5 - Platform for requesting support

A platform and forum for requesting assistance with country reports and transparency issues

2 - Transparency country information

Profiles with information on progress on NCs and BURs, self-assessed needs, and CBIT projects.

4 - Interactive user-driven forum

Information exchange and online tools for peer learning, coordination for regional MRV and transparency networks.

Stakeholder Consultations for the Platform

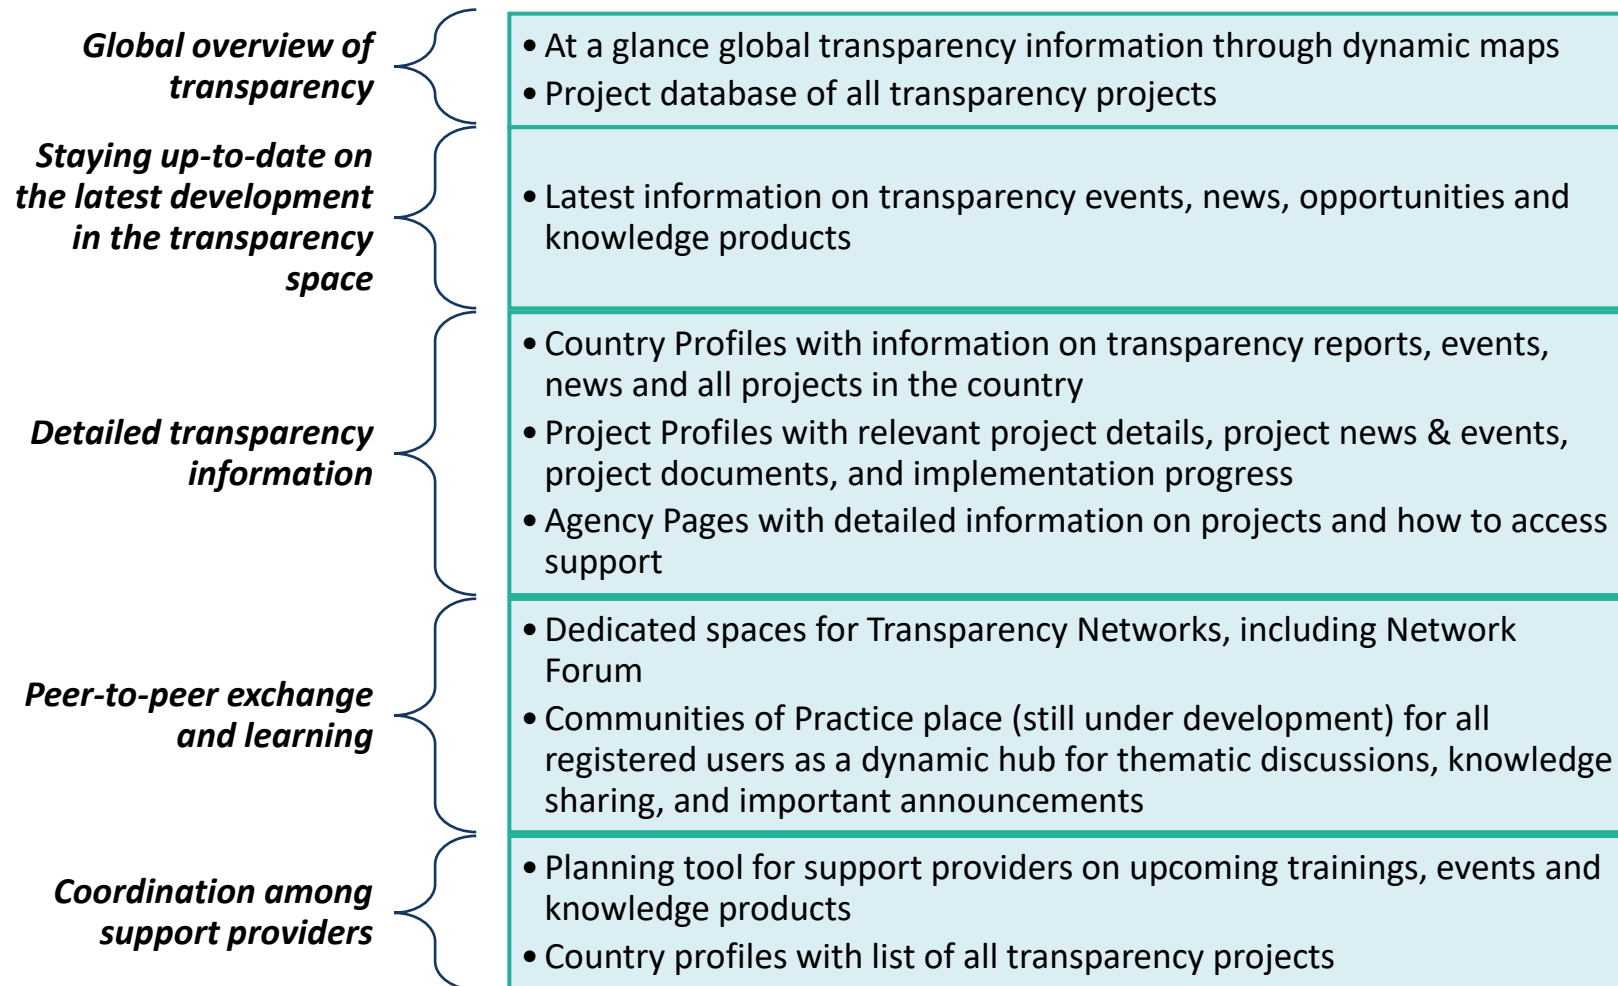

During Q2 2022, 5 consultations held with transparency experts, country & project focal points, and international agencies & initiatives

Objective:

- Identify and define key functionalities
- Identify challenges and areas to address, from experience in previous platforms
- Define new features e.g., request for support, stakeholder roles, forum, and regional transparency networks
- Identify useful features to show in the main pages and interactive maps
- Agree on national transparency information relevant to feature in country pages

Functionalities of the Climate Transparency Platform

One-Stop Shop for Transparency - Owned by all Climate Transparency Stakeholders

Climate Transparency Platform – Built by the Global Transparency Community

A platform for and by the Climate Transparency Community

- The Climate Transparency Community has an integral role in building and improving the Platform
- Shared responsibility among all to keep it updated and useful for everyone

Please engage in the platform and make it your own space. We are very curious to hear your feedback and ideas!
