Language: English

Participating organizations:

Ministry of the Environment, Japan (MOEJ); Ministry of Environment Republic of Moldova (MERM), The Regional Environmental Centre for the Caucasus (RECC) Georgia, UNEP Copenhagen Climate Centre (UNEP CCC) via its CBIT-GSP project, Mitsubishi UFJ Research and Consulting (MURC); Institute for Global Environmental Strategies (IGES)

Background:

Participating organizations from three countries met on July 12, 2023 for the kick-off meeting. Since then, we have worked on the first exercise: **filling a common tabular format (CTF) for reporting mitigation actions** in the energy sector. Participating organizations have reviewed each other's exercise and exchanged questions and comments, prior to the main meeting.

Objectives:

1. To improve the understanding of methodologies and assumptions and how to fill the CTF-5 for reporting mitigation actions in the energy sector, including gaps and challenges
2. To discuss the content and schedule of the second exercise that best matches with the interest of participants (proposed **second exercise: the development of CTF-1** (description of selected indicators) and **CTF-2** (definitions needed to understand NDC))

MC: Temuulen Murun, Climate and Energy area, IGES
