Explanation of 1st exercise: Filling a common tabular format (CTF) for reporting mitigation actions in the energy sector

**Kick-off meeting of the Mutual Learning Programme (MLP) for Enhanced Transparency (MLP):
Reporting of mitigation actions in the Energy Sector under Art.13 (Armenia-Kazakhstan)**

May 10th 2024

Aiyngul Kerimray
Scientist-Energy
UNEP-Copenhagen Climate
Centre

Nailia Timerkhanova
Regional Network Coordinator for Central
Asia and the Caucasus
CBIT-GSP

Main steps

Step 1. Preparation

- Carefully read through:

Step 2. Development of draft reports

- Draft the reporting of mitigation actions in the energy sector by filling:

Step 3. Review draft reports developed by other partners

- Review each other's drafts

Step 4. Presentation at the main meeting

- Explanation of draft reports and received questions

Additional materials – GACMO methodology for estimating emission reduction

1. Open the folder
“Additional materials”-
“GACMO examples”

2. PowerPoint file
“Approach for
estimating emission
reduction”

3. Excel file “Template
for estimating
emission reduction”

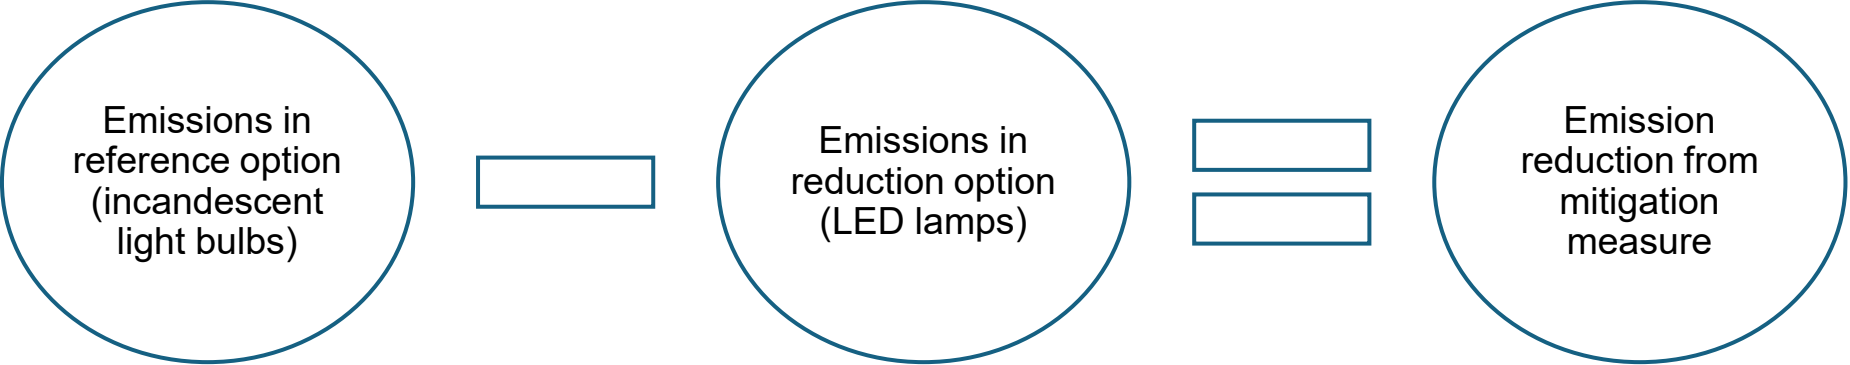

4. Revise values in
yellow cells with data
for your country

https://drive.google.com/drive/folders/1_OpR6C9LJMDSK3t7Vvk1yLFG0tHEVVrl?usp=drive_link

Additional materials – GACMO methodology for estimating emission reduction

Three examples:

- LED lamps replacing incandescent bulbs
- Solar PV (on-grid)
- Electric light-duty cars (replacing gasoline cars)

First exercise

Fill in the information in two files and upload it to the shared folder

Template A (Excel): CTF-5, Mitigation policies and measures, actions and plans

Temp B (Word): Associated methodologies and assumptions

CTF Table 5. Mitigation policies and measures, actions and plans, including those with mitigation co-benefits resulting from adaptation actions and economic

Information shall be provided, to the extent possible (para. 42(a)-(i) of MPGs)

No.	Name ^(a)	Description ^{(a)(b)}	Objectives	Type of instrument ^(a)	Status ^(a)	SECTOR(S) affected ^(a)	Gases affected ^(a)

Please add rows if necessary

Custom footnotes:

Discussion table has:

Mutual Learning Program for Enhanced Transparency 2023-24
Art. 13: Reporting of mitigation actions in the energy sector

Description of methodologies and assumptions

https://drive.google.com/drive/folders/1_OpR6C9LJMDSK3t7Vvk1yLFG0tHEVVrl?usp=drive_link

Timelines and next steps:

- By **15th of July** - submit your respective exercises - CTF5 and Description of Methodologies and Assumptions to Nailia and Aiymgul
- By **20th of July** - provide comments and review the exercises (CTF5/Description of Methodology) of your pair country - also submit in written
- On **25 or 26 of July** - the **main virtual meeting** to present the results of the Exercises from both countries (CTF5/Description of Methodology), which have been improved through the peer-review

Thank you!
