5th NC & 1st BTR

Fifth national communication on climate change and first biennial report on transparency

**CBIT-GSP WORKSHOP
EXPERIENCE-SHARING FROM MOROCCO**

Presentation plan

1. Context
2. Project objective and components
3. Coordination unit for BTR
4. Implementation status
5. Implementation timeline per component
6. Challenges & Barriers

1. Context

- 4 national Communications
- 3 Biennial updated reports

- 5th NC and 1st BTR under development

Morocco's efforts to implement the transparency framework

1. Context

Institutional arrangements dedicated to GHG inventory (2019)

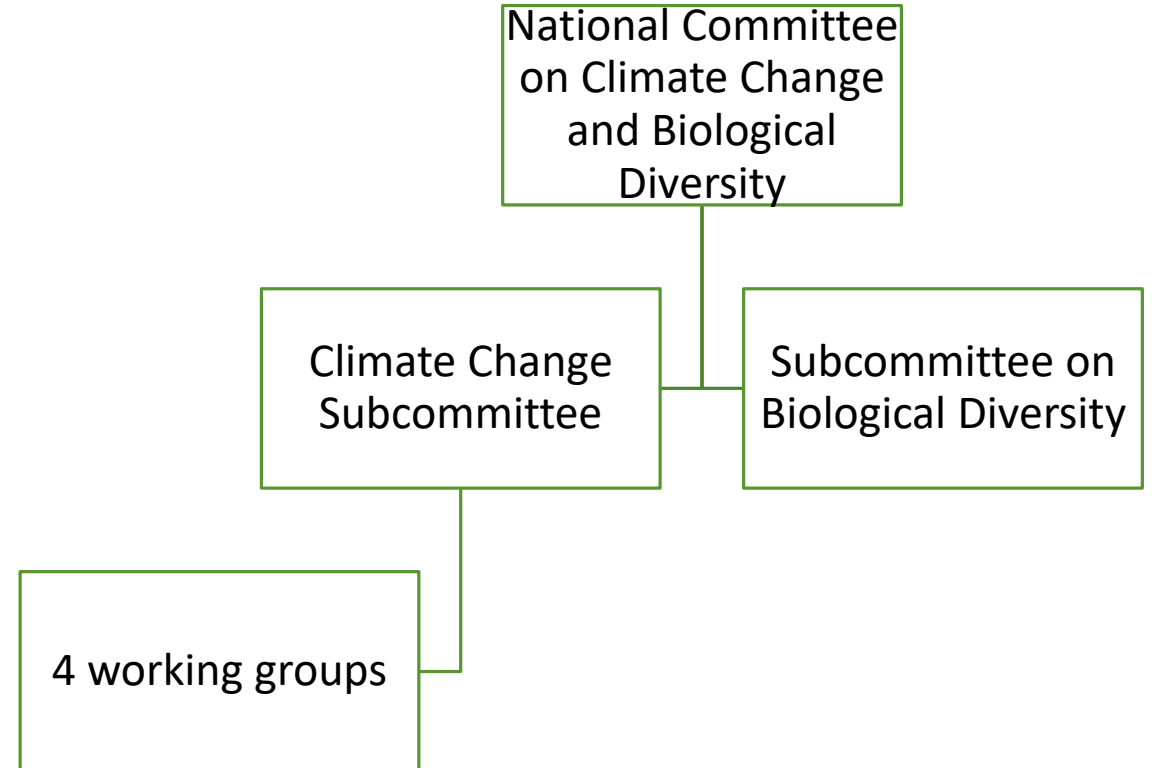

- Composé des principales institutions représentatives des secteurs d'inventaire
- Se réunit au moins une fois par an et selon les besoins
- Valide les méthodologies de l'inventaire avant leur mise en application
- Valide les résultats finals et les rapports avant leur transmission au secrétariat de la CCNUCC
- Valide le Plan d'Amélioration présenté par le Coordonnateur National

- Chargée de gérer tous les aspects de développement de l'inventaire national de GES
- Composée du Coordonnateur national, des Coordinateurs sectoriels, des inventaristes et des points focaux
- Peut également comprendre experts, représentants de la société civile, chercheurs ou autres acteurs jugés utiles

Institutional arrangements related to climate change (2020)

Transparency framework under development

2. Project objectives and components

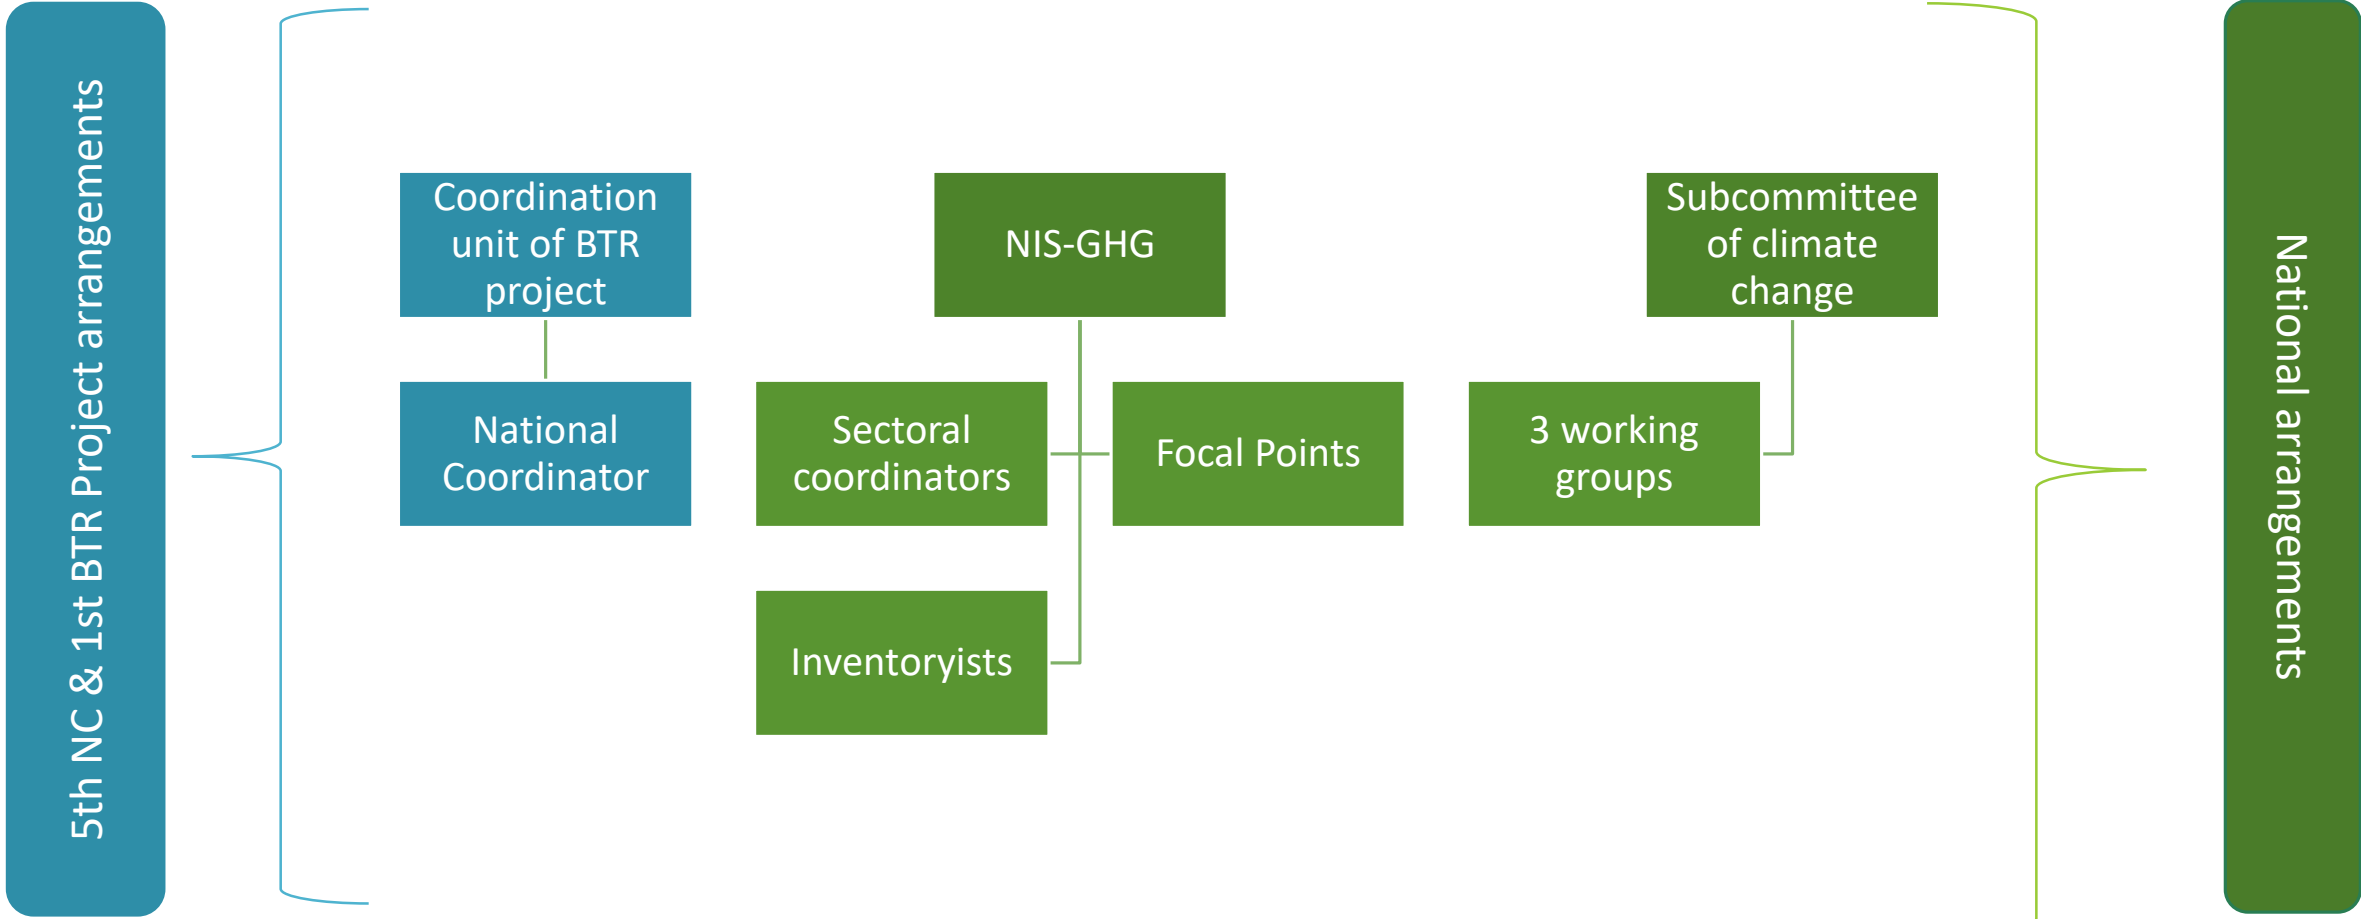

Objective

The project aims to support Morocco in the preparation, production and dissemination of a combined report of its Fifth National Communication on Climate Change and its first biennial report on transparency.

Components

Component 1	Support needed and received and other relevant information
Component 2	National inventory report of anthropogenic emissions by sources and absorption by sinks of greenhouse gases
Component 3	Information needed to monitor progress in implementing and achieving the NDC Nationally Determined Contributions under Article 4 of the Paris Agreement
Component 4	Information related to the impacts of and adaptation to climate change, in accordance with Article 7 of the Paris Agreement
Component 5	Compilation of the combined NC/BTR report, knowledge management, monitoring and evaluation

3. Coordination unit for BTR

4. Implementation status

**Component 1 : Support
needed and received**

- Data collection finalized
- Draft version of report prepared
- Under validation

**Component 2 : GHG
inventory**

- National circumstances & institutional arrangements described
- Data collection on-going
- Calculation on-going for some sectors (Energy & Agriculture)

**Component 3 : NDC
progress**

- National circumstances & institutional arrangements under description
- Data collection on-going

**Component 4 :
Vulnerability &
Adaptation**

- National circumstances & institutional arrangements
- Data collection on-going

**Component 4 :
Compilation of 5 NC /
BTR 1**

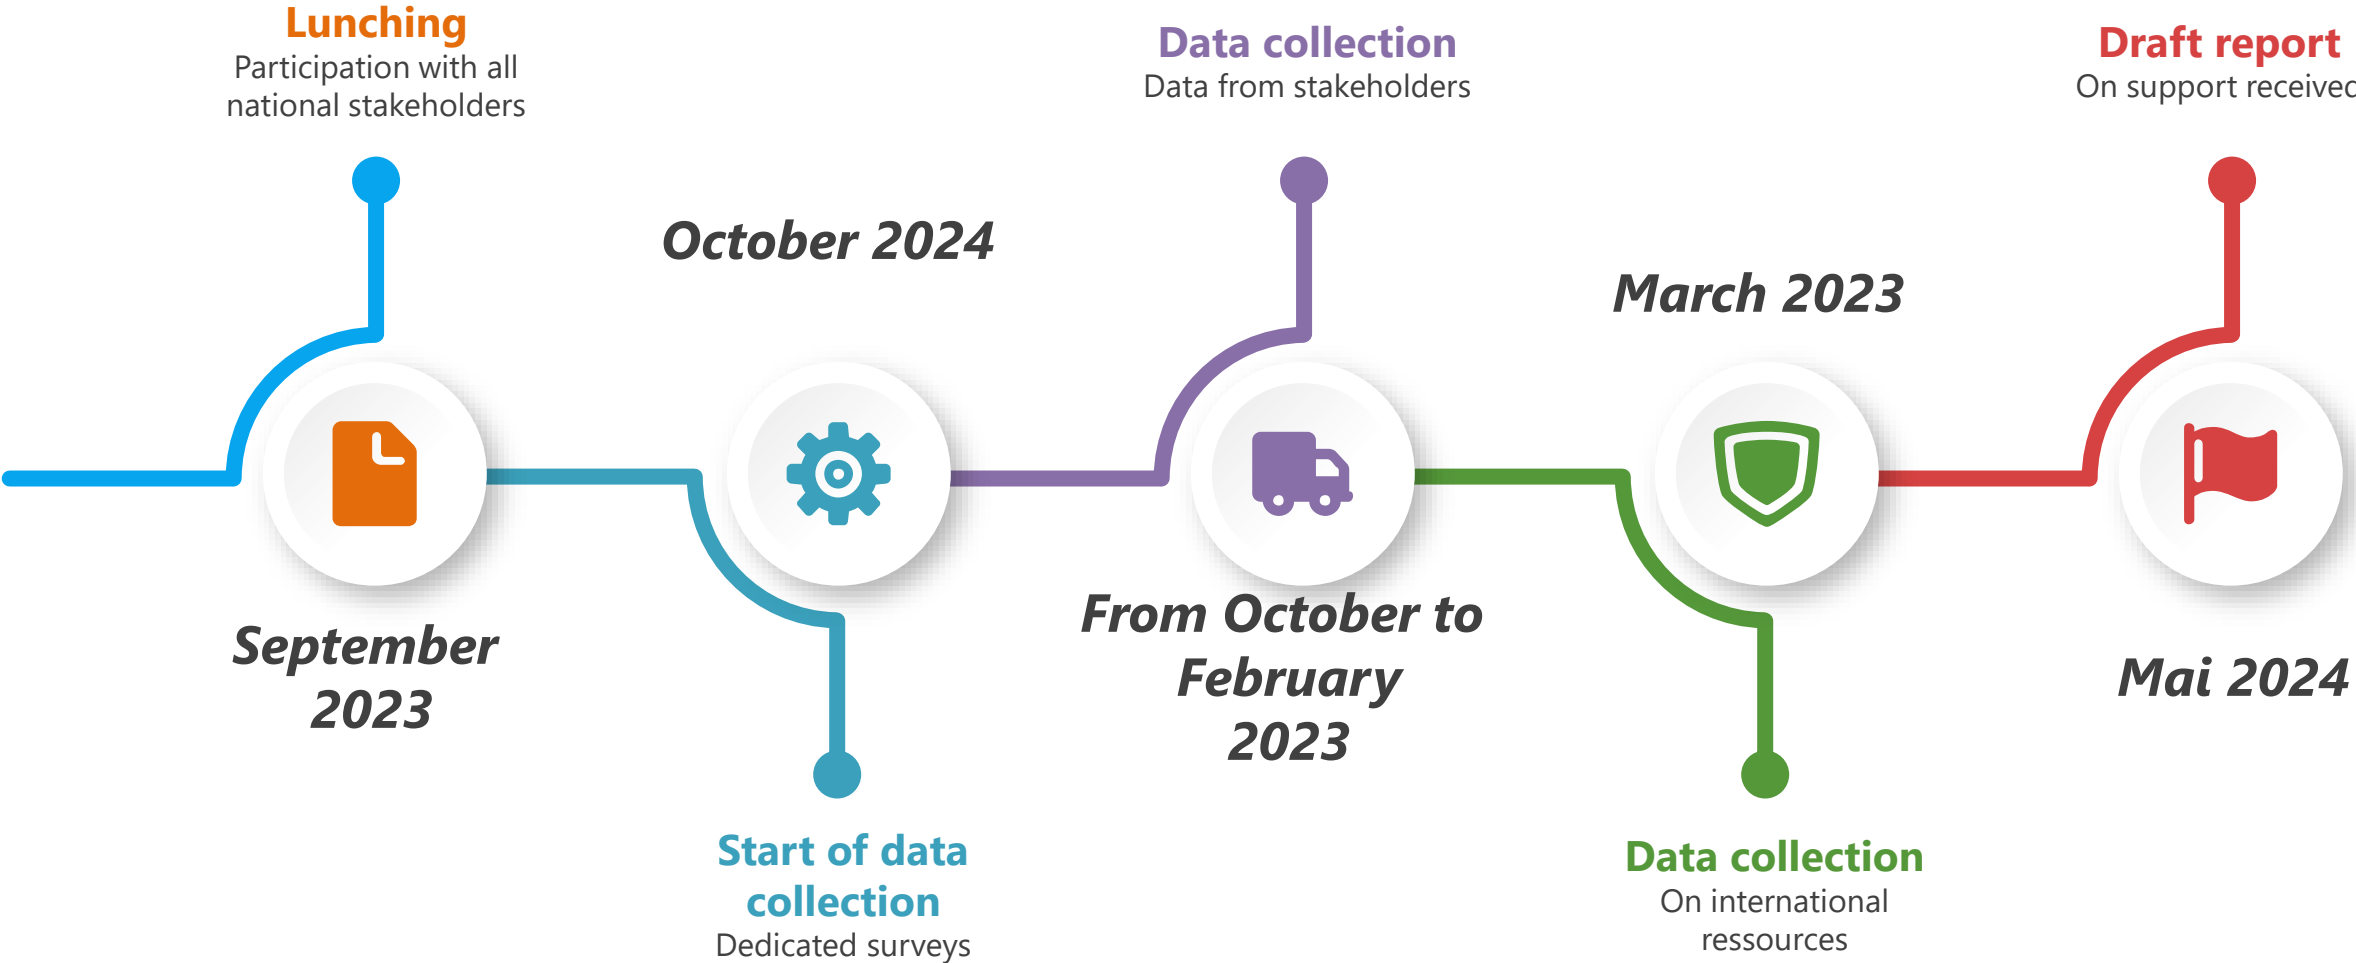

- Waiting for the other components to be finalized

5. Implementation timeline per component

80% progress

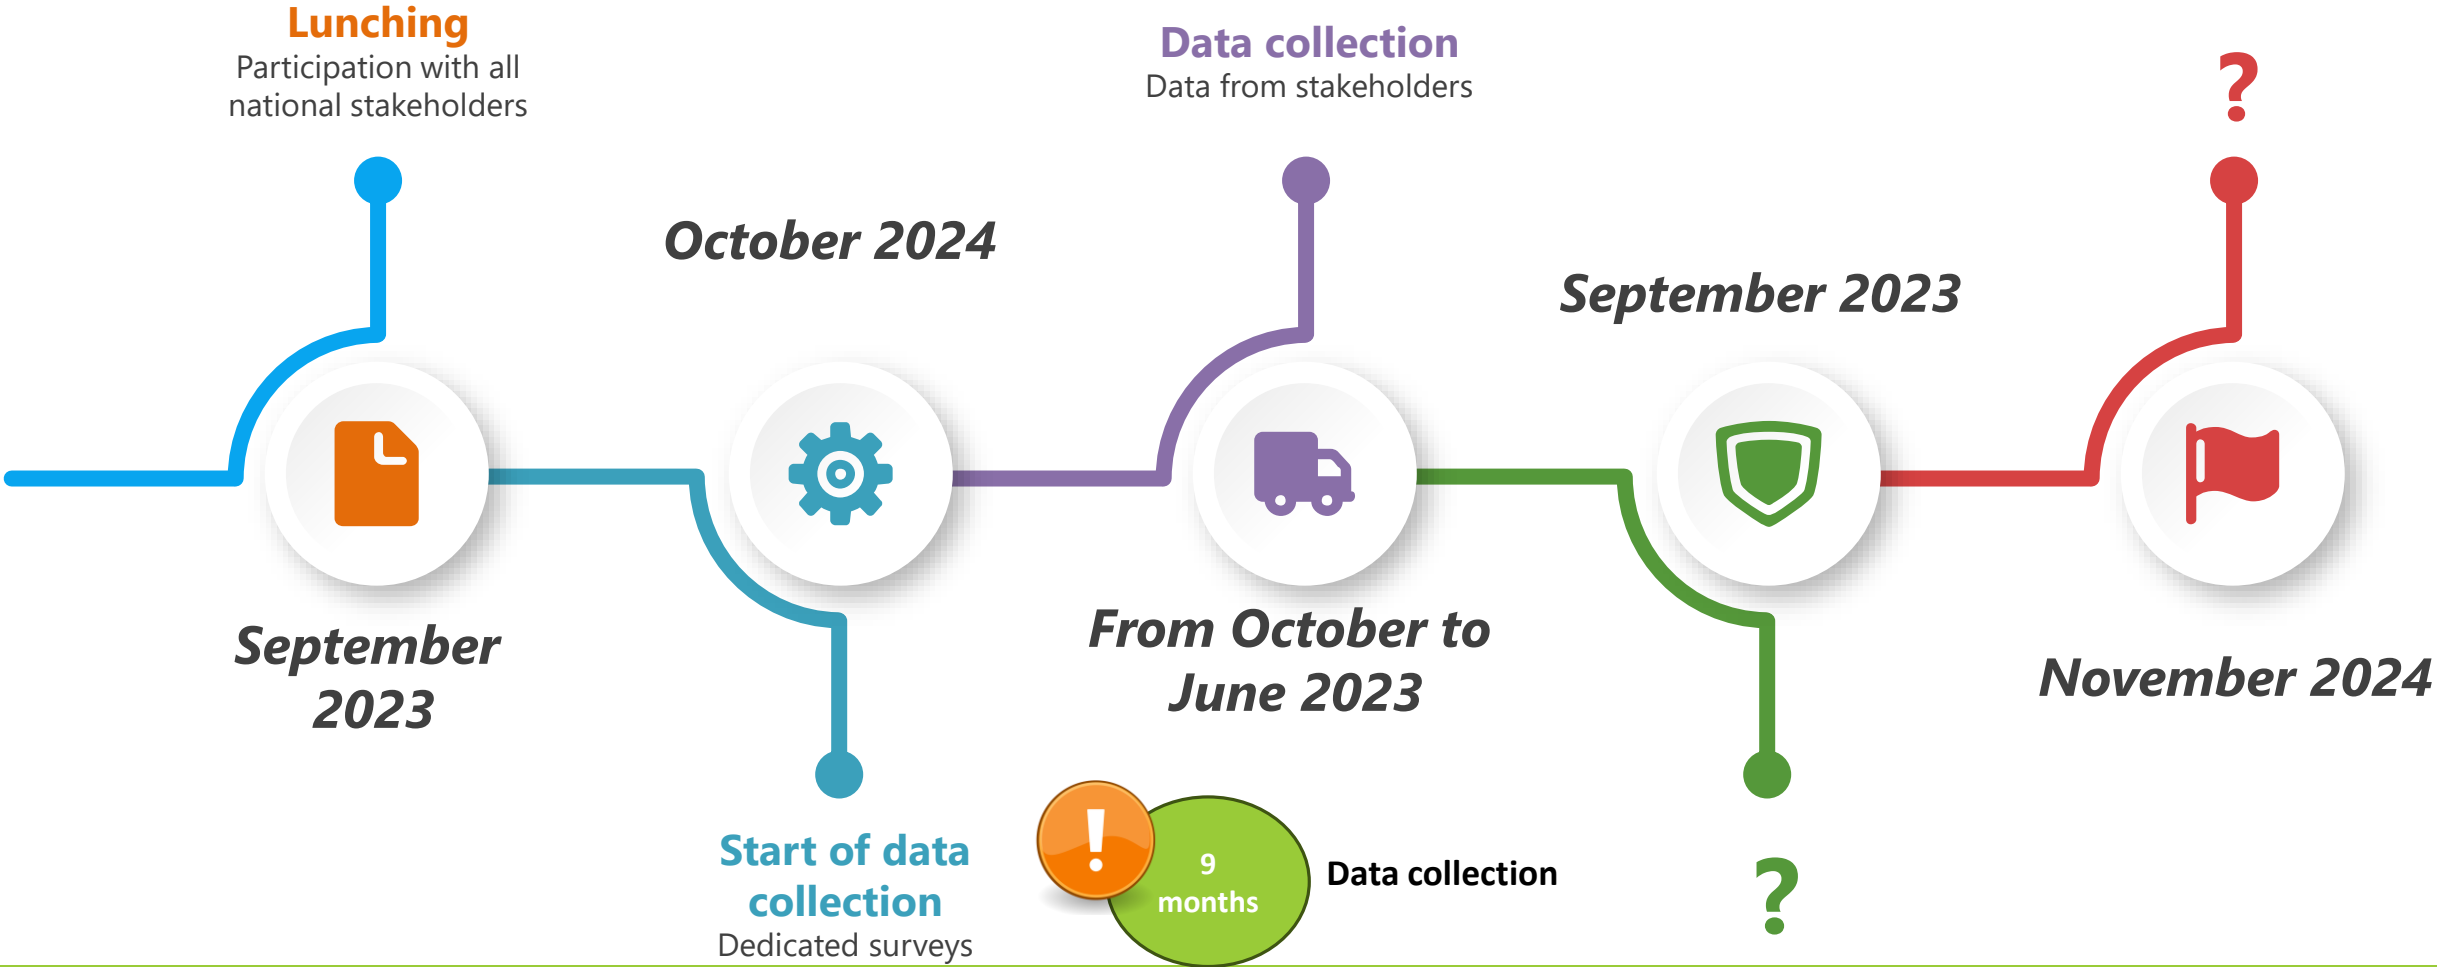

Component 1 : Support needed and received

5. Implementation timeline per component

30% progress

Component 2 : GHG inventory

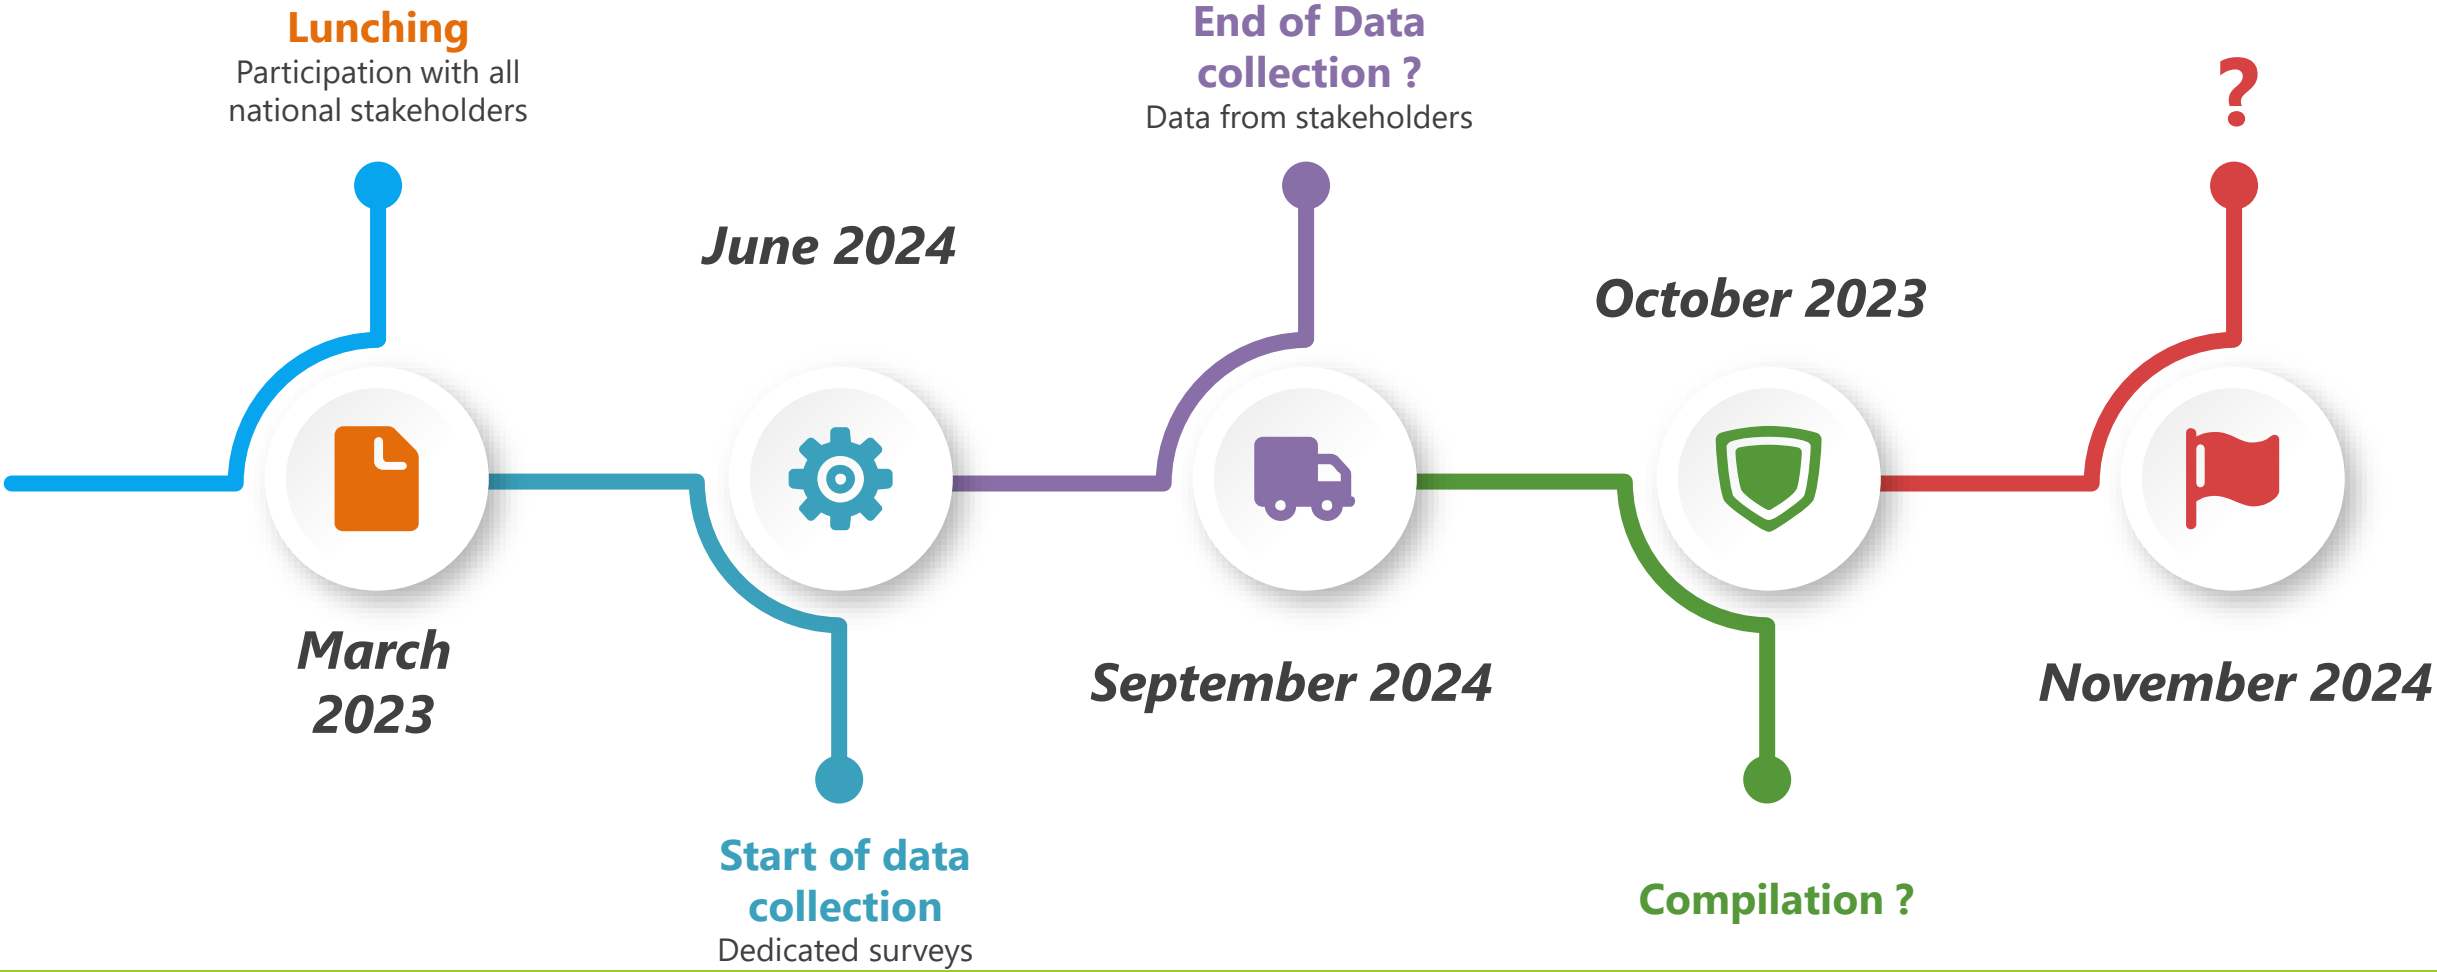

5. Implementation timeline per component

30% progress

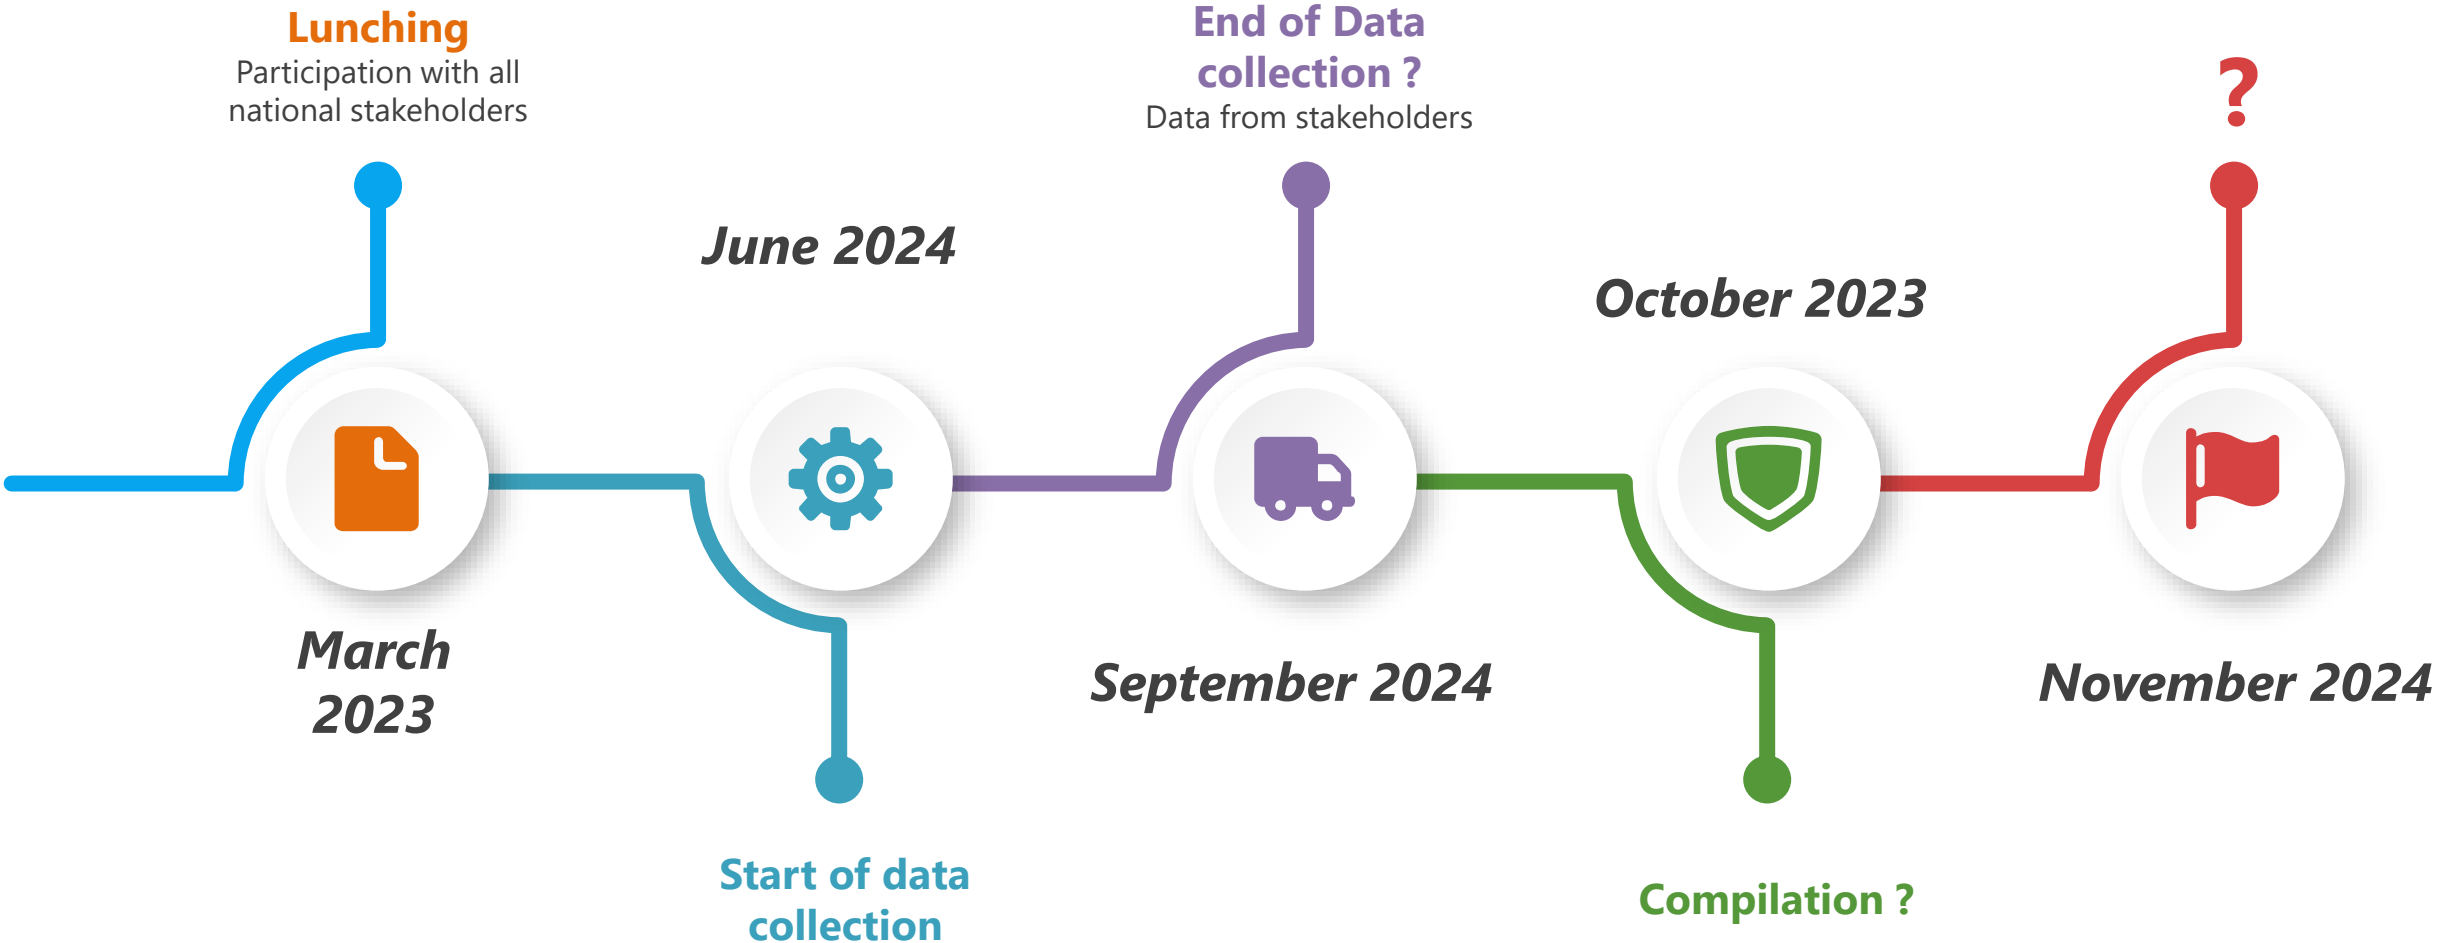

Component 3 : NDC progress

5. Implementation timeline per component

20% progress

Component 4 : Vulnerability & Adaptation

5. Main challenges and barriers

•Difficulties in data collection & Lack of databases

Multiple responsibilities for the same actors: provision of data for studies, validation of deliverables, participation in meetings and training, etc.

Large number of CRT tables to fill in in limited time

•Lack of legal framework dedicated to data sharing

•Lack of national expertise

Thank you for your attention

Andalus BEN-DRISS

National coordinator

Capacity building initiative for transparency Project (CBIT)
