Information necessary to track progress made in implementing and achieving nationally determined contributions under Article 4 of the Paris Agreement

Decision 18/CMA.1

Modalities, procedures and guidelines for the transparency framework for action and support referred to in Article 13 of the Paris Agreement

Para 59 -102

Chapter II Outline based on the MPGs: Information necessary to track progress made in implementing and achieving nationally determined contributions under Article 4 of the Paris Agreement

A. National circumstances and institutional arrangements

E. Summary of GHG Emissions and Removals

B. Description of a Party's NDC under Article 4 of the Paris Agreement, including updates

F. Projections of GHG Emissions and Removals

C. Information necessary to track progress

G. Other Information

D. Mitigation Policies, Actions, and Plans

Common tabular formats for the electronic reporting of the information necessary to track progress made in implementing and achieving nationally determined contributions under Article 4 of the Paris Agreement

Decision 5/CMA.3
Guidance for operationalizing the modalities, procedures and guidelines for the enhanced transparency framework referred to in Article 13 of the Paris Agreement

Annex II*

Common tabular formats for the electronic reporting of the information necessary to track progress made in implementing and achieving nationally determined contributions under Article 4 of the Paris Agreement

1. Structured summary: Description of selected indicators

<i>Indicator(s) selected to track progress^a</i>	<i>Description</i>
{Indicator}	Information for the reference point(s), level(s), baseline(s), base year(s) or starting point(s), as appropriate ^b Updates in accordance with any recalculation of the GHG inventory, as appropriate ^b Relation to NDC ^c

Notes: (1) Pursuant to para. 79 of the MPGs, each Party shall report the information referred to in paras. 65–78 of the MPGs in a narrative and common tabular format, as applicable. (2) A Party may amend the reporting format (e.g. Excel file) to remove specific rows in this table if the information to be provided in those rows is not applicable to the Party's NDC under Article 4 of the Paris Agreement, in accordance with the MPGs. (3) The Party could add rows for each additional selected indicator and related information.

^a Each Party shall identify the indicator(s) that it has selected to track progress of its NDC (para. 65 of the MPGs).

^b Each Party shall provide the information for each selected indicator for the reference point(s), level(s), baseline(s), base year(s) or starting point(s), and shall update the information in accordance with any recalculation of the GHG inventory, as appropriate (para. 67 of the MPGs).

^c Each Party shall describe for each indicator identified how it is related to its NDC (para. 76(a) of the MPGs).

Common Tabular Formats

What are CTFs?

- Set of standardized tables that provide a structured way to report information
- Designed to ensure comparability and transparency while also allowing for flexibility in recognition of different national

Why use CTFs

- To track progress made in implementing and achieving NDCs
- Easier to compare and analyze data across countries and sectors

Common Tabular Formats - Tables

MPG Section III	Related Tables from the Common tabular formats (CTF)	Reporting requirement Paragraph of the MPGs	Flexibility, for Parties that need flexibility in the light of their capacities (self-determined)
B. Description of a Party's NDC	Appendix: Description of a Party's NDC	64	
C: . Information necessary to track progress made in implementing and achieving its nationally determined contribution under Article 4 of the Paris Agreement	Table 1: Structured summary: Description of selected indicators	65	Parties can have their latest reporting year as three years prior to the submission of their national inventory report
	Table 2. Structured summary: Definitions needed to understand NDC	73	
	Table 3. Structured summary: Methodologies and accounting approaches – consistency with Article 4, paragraphs 13 and 14 of the Paris Agreement and with decision 4/CMA.1	71-77d	
	Table 4. Structured summary: Tracking progress made in implementing and achieving the NDC under Article 4 of the Paris Agreement	77a -77dii	
	Table 12. Information necessary to track progress on the implementation and achievement of the domestic policies and measures implemented to address the social and economic consequences of response measures	78	

Common Tabular Formats - Tables

MPG Section III:	Related Tables from the Common tabular formats (CTF)	Reporting requirement	Flexibility, for Parties that need flexibility in the light of their capacities (self-determined)
D: Mitigation policies and measures, actions and plans, including those with mitigation co-benefits resulting from adaptation actions and economic diversification plans, related to implementing and achieving a nationally determined contribution under Article 4 of the Paris Agreement	Table 5. Mitigation policies and measures, actions, and plans, including those with mitigation co-benefits resulting from adaptation actions and economic diversification plans, related to implementing and achieving a nationally determined contribution under Article 4 of the Paris Agreement	82-85	Encouraged to report estimates of expected and achieved GHG emission reductions for its actions, policies, and measures
E. Summary of greenhouse gas emissions and removals	Table 6. Summary of greenhouse gas emissions and removals in accordance with the common reporting table 10 emission trends – summary	91	
F. Projections of greenhouse gas emissions and removals, as applicable	Table 7. Information on projections of greenhouse gas emissions and removals under a ‘with measures’ scenario	92-101	encouraged to report projections. Can instead report using a less detailed methodology or coverage.
	Table 8. Information on projections of greenhouse gas emissions and removals under a ‘with additional measures’ scenario		
	Table 9. Information on projections of greenhouse gas emissions and removals under a ‘without measures’ scenario		
	Table 10. Projections of key indicators	97	
Table 11. Key underlying assumptions and parameters used for projections	96 c		

CTF tables for the electronic reporting of the information necessary to track progress made in implementing and achieving NDCs

NDC definition and methods

- **Appendix:** Description of a Party's NDC
- **Table 1:** Description of selected indicators
- **Table 2:** Definitions needed to understand the NDC
- **Table 3:** Methodologies and accounting approaches

Current mitigation status and tracking progress

- **Table 4:** Tracking progress
- **Table 5:** Mitigation policies, measures, actions and plans (Achieved)
- **Table 6:** Inventory summary

Projections and expected emissions reduction

- **Table 5:** Mitigation policies, measures, actions and plans (expected)
- **Table 7:** Projections "with measures" scenario
- **Table 8:** Projections "with additional measures" scenario
- **Table 9:** Projections "without measure" scenario
- **Table 10:** Projections of key indicators
- **Table 11:** Key underlying assumptions and parameters of projections

Response measures

- **Table 12.** Information necessary to track progress on the implementation and achievement of the domestic policies and measures implemented to address the social and economic consequences of response measures

Understanding the tables

Progress of what?	What is the Target?	Description of NDC	Appendix
How will I track Progress?	Definitions	Definition necessary to understand the NDC	Table 1
	Indicators	Description of the indicator	Table 2
	Methodologies	Methodologies and accounting approaches	Table 3
How will I achieve the Target?	Policies, Measures, Actions & Plans	Mitigation policies, measures, action and plans	Table 5
	Projections	Projections of GHG emissions and Removals	Table 7,8&9
		Projections of indicators	Table 10
		Assumptions and parameters for projections	Table 11
Am I on Track?/ Did I achieve the target?	GHG Emissions and Removals	Summary of GHG inventory	Table 6
	Make Assessment	Structured summary	Table 4

Flexibility Provisions

Flexibility provisions (Annex to decision 18/CMA.1)	Flexibility provisions for those developing country Parties that need it in the light of their capacities
Para. 85 (estimated impacts of PaMs)	<p>Each Party shall provide, to the extent possible, estimates of expected and achieved GHG emission reductions for its actions, policies and measures in the tabular format referred to in paragraph 82 above; those developing country Parties that need flexibility in the light of their capacities with respect to this provision are instead encouraged to report this information.</p> <p>Use notation key FX</p>
Para. 92 (projections)	<p>Each Party shall report projections pursuant to paragraphs 93–101 below; those developing country Parties that need flexibility in the light of their capacities are instead encouraged to report these projections.</p> <p>UNFCCC Progress tool: version settings, data entry grids, and reporting tables for projections are all disabled</p>
Para. 95 (projections)	<p>Projections shall begin from the most recent year in the Party’s national inventory report and extend at least 15 years beyond the next year ending in zero or five; those developing country Parties that need flexibility in the light of their capacities with respect to this provision have the flexibility to instead extend their projections at least to the end point of their NDC under Article 4 of the Paris Agreement.</p> <p>Endpoint of projections as early as NDC end year is allowed.</p>
Para. 102 (projections)	<p>Those developing country Parties that need flexibility in the light of their capacities with respect to paragraphs 93–101 above can instead report using a less detailed methodology or coverage.</p> <p>Use notation key FX.</p>
