

REQUEST FOR SUPPORT FOR CLIMATE TRANSPARENCY¹

1. NATIONAL CONTACT

Country Indonesia

Contact name Ms. Laksmi Dhewanthi

Email ldhewanthi@menlhk.go.id

Position Director General of Climate Change

Institution Ministry of Environment and Forestry

2. INFORMATION ON SUPPORT REQUESTED

Title of activity *Please include a title that summarises the specific topic of the support request.*
Capacity building workshop to prepare Indonesia's first Biennial Transparency Report

Objective and description *Please describe the objective of the support requested, e.g., improving institutional arrangements, developing specific technical capacities, etc. and how the requested support will address the country's needs in enhanced climate transparency?*
The primary objectives of this training workshop are to provide participants with a comprehensive understanding of the enhanced transparency framework under the Paris Agreement. The objective of this five-day workshop is to enhance the knowledge and skills of Indonesian stakeholders involved in preparing the first Biennial Transparency Report.

Time frame *Please describe the expected time frame of the support requested, e.g., from May to September 2023, October 2023.*
July 2024 to September 2024

Recipient entity *Please describe the recipient entity of the support requested.*
Department of Climate Change, Ministry of Environment and Forestry

Area *Please choose the relevant area(s) of support that is being requested.*
☐ Institutional arrangements for transparency
☒ Report development (Natcom, BUR, BTR, NIR, etc.)
☒ GHG Inventory ☒ NDC tracking ☒ Mitigation actions
☒ Adaptation and impacts ☐ Loss and damages ☒ Support needed/received
☐ Other (please specify) [Click here to specify.](#)

Channel *Please choose the channel of support that is being requested.*
☐ Multilateral cooperation ☐ Bilateral cooperation ☐ Regional cooperation
☒ Webinar ☐ Online workshop or training ☒ In-country workshop or training

¹ This concept note has been developed in line with [Table III.3 of Annex III \(Decision 5/CMA.3\)](#) in order to support countries for reporting information on support received for implementation on Article 13 of the Paris Agreement on transparency-related activities, including for transparency-related capacity-building.

- ☐ Peer-review or simulation of ICA process
 ☐ Hands-on expert support
 ☐ Consultancy services
- ☐ Other (please specify) [Click here to enter text.](#)

Use, impact and estimated results

Please describe the expected use, impacts and estimated results of the support requested.

Objectives and purpose of the training

The primary objectives of this training workshop are to provide participants with a comprehensive understanding of the enhanced transparency framework under the Paris Agreement. The objective of this five-day workshop is to enhance the knowledge and skills of Indonesian stakeholders involved in preparing the first Biennial Transparency Report. The workshop will focus on key aspects of the ETF, including:

- Familiarize participants with the Biennial Transparency Report requirements under the Paris Agreement and its Enhanced Transparency Framework (ETF)
- Guide participants in developing a comprehensive national inventory document and offer practical training on how to effectively employ the common reporting table for reporting.
- Exchange experiences and lessons learned, corresponding to the application of IPCC and UNFCCC tools and systems for reporting inventory data with ETF provisions.
- Completing Common Reporting Tables (CRTs) and Common Tabular Format (CTF)
- Linking NDC tracking with GHG inventory
- Reporting on adaptation actions
- Identifying and reporting on support needed and received

By the end of the workshop, participants are expected to:

- Demonstrate a comprehensive understanding of the ETF and its requirements
- Show proficiency in preparing and using GHG inventories
- Confidently use IPCC inventory software and complete CRTs and CTF
- Understand the linkage between NDC tracking and GHG inventory
- Effectively report on adaptation actions and support needed/received
- Be prepared to contribute significantly to Indonesia's first BTR preparation

Additional information (Current context and reason for requesting the support)

Please shortly describe the current context of transparency in your country in which this support will come in and explain the reasons for requiring support in this specific area. Please also state if you have received or receiving similar support in this area (e.g., CBIT, GEF Enabling Activities, ICAT, UNDP, RedINGEI, GSP).

Indonesia has submitted three National Communications (NCs) and three Biennial Update Reports (BURs) to the UNFCCC. The country is now making rapid progress towards implementing the ETF and developing its first Biennial Transparency Report (BTR).

The country is seeking support as the ETF introduces more rigorous and comprehensive reporting requirements compared to the current MRV system. Support is needed to understand and implement these new requirements.

Preparing a BTR requires advanced technical skills in GHG inventory compilation, projections, and tracking of NDC progress. Many stakeholders may lack these specialized skills. To ensure comparability and consistency in reporting over time, Indonesia needs support in establishing and maintaining robust methodologies across all reporting areas. The ETF requires more comprehensive reporting on adaptation actions and support needed and received. This is an area where Indonesia may have less experience and thus requires additional support. Indonesia has its own data management system, so it is required to gain familiarity with the latest IPCC software and other reporting tools is crucial for efficient and accurate reporting. Training in these areas is essential. Enhanced QA/QC procedures are also needed to meet the higher standards of the ETF, requiring support in developing and implementing these procedures.

This collaborative approach will help identify and address challenges in implementing sustainable practices within the national context. The workshop allows the country to tailor the training content and delivery to its specific needs and circumstances. This ensures the relevance and applicability of the knowledge and skills gained by the participants, ultimately supporting the country's efforts towards accurate greenhouse gas measurement and reporting for ETF of the Paris Agreement.

3. PROPOSED ACTIVITIES AND ESTIMATED BUDGET

Please provide a description of the proposed activities and the estimated budget for the requested support, including country's co-financing.

Activity 1 (20-24 August). Planning to organise an in-country workshop on building capacity of national experts to prepare first Biennial Transparency Report

Table 1. Estimated budget for the requested support

Item/activity	Amount	Cost (USD)	Subtotal (USD)
CBIT-GSP financing			
Item 1.	Amount.	0,000.	0,000.
Item 2.	Amount.	0,000.	0,000.
Item 3.	Amount.	0,000.	0,000.
Item 4.	Amount.	0,000.	0,000.
Item 5.	Amount.	0,000.	0,000.
(1) Total CBIT-GSP financing			0,000.
Country Co-financing			
Item 1.	Amount.	0,000.	0,000.
Item 2.	Amount.	0,000.	0,000.
Item 3.	Amount.	0,000.	0,000.
Item 4.	Amount.	0,000.	0,000.
(2) Total Country Co-financing			0,000.
(3) TOTAL (1)+(2)			0,000.
