

Promoting capacity-building as part of national inventory development in Trinidad and Tobago

Sue-Ann Ramnarine
Technical Officer II
Environmental Management Authority of Trinidad and Tobago
sramnarine@ema.co.tt

Background and Methodology

1. Transition from Consultancy based inventory development to a dedicated institution
2. National MRV System (KMS/NTS)
3. Training the responsible agency (EMA)
4. Stakeholder Sensitization Sessions
5. Certification Program

Main Results and Example

Increased voluntary submissions
of emissions data/activity data

Strengthened transparency and
accuracy of the inventory

Improved communication
between stakeholders and
regulator

Thank you for your attention!
