

Gender Group of Practice

Gender Mainstreaming into Climate Transparency Reporting

-- Exchange of Experience Webinar --

Time: **11:00 – 12:30 CET** | Date: **October 11, 2024** | Format: **Online**

Background

Climate change is a complex crisis affecting everyone, with women being particularly impacted due to persistent gender inequality. Effective climate policies must support women's roles in resilience and zero-carbon development by addressing structural gender inequalities. Since COP 7 in 2001, various decisions have emphasized gender considerations in climate policy. The Lima Work Programme on Gender, adopted at COP 20 in 2014, and the Paris Agreement in 2015 further promoted gender equality in climate actions. The CBIT-GSP project aims to facilitate knowledge exchange through a virtual workshop, allowing countries to share experiences and best practices in integrating gender perspectives into climate policies and reports. Moreover, CBIT GSP is developing a new toolkit for integrating gender in transparency reporting to support countries to enhance gender component in their NCs and BTRs.

Objective

The primary goal of the virtual event is exchange of information on current practice of gender mainstreaming in NCs, BURs/BTR, NAP, NDC but also learning and understanding of the gender perspective and potential improvements in transparency reporting. It aims to facilitate knowledge exchange regarding the integration of gender considerations into climate policy and reporting, using practical examples and experiences from the two regions: Eurasia and Central Asia and the Caucasus. Participants will also have the opportunity to share their advancements in addressing gender and climate change issues, as well as engage in discussions about the challenges and opportunities related to transparent and sustainable gender reporting.

Target Audience and Language

The virtual exchange will bring together gender Focal Points, experts of gender, officers and gender practitioners from relevant ministries as well as experts from various sectors responsible for climate transparency reporting, climate policy development and climate from the Eurasia and Central Asia and the Caucasus.

The meeting will be held in English. The link to the meeting will be shared later.

Duration The webinar will last **1h and 30 min.**

Proposed agenda

Time (CET)	Session
11:00 – 11:10	<p>Opening session and welcoming remarks</p> <p>Speaker: Ms. Sladjana Bundalo, Eurasia Network Coordinator</p> <p>Group Photo</p>
11:10 – 11:40	<p>Country presentations: Albania & Armenia</p> <ul style="list-style-type: none"> • Gender mainstreaming in NCs, BURs/BTR, NAP, NDC • Next steps for improving gender mainstreaming and reporting <p>Speakers:</p> <ul style="list-style-type: none"> • Eneida Rabdishta, Albania • Ani Ghukasyan, Ministry of Environment, Armenia
11:40 – 11:50	<p>Q&A Session</p> <p>Group discussion:</p> <ul style="list-style-type: none"> • What is the systematic process for collecting and sharing data and information on gender in climate reporting (formal, informal) in your country? • What have been the particular solutions to overcoming data and information bottlenecks?
11:50 – 12:20	<p>Moderated break out Q&A session in a) English and b) Russian led by Catherine Allinson, Gender Expert and Nailia Timerkhanova, Network Coordinator</p> <p>Proposed questions</p> <ul style="list-style-type: none"> • What is your involvement in reviewing laws, policies and strategies • Have you secured any budget for gender reporting and if yes, where does the financing come from? • If gender training and capacity building has not been carried out across all government departments, will this be included in capacity building needs section of the forthcoming BTR? • How are NGOs and CSOs supported (financially, capacity) to help with gender data collection and analysis? • What is your involvement with the M&E or MRV reporting systems which track projects with a gender focus? • How is public awareness raised about e.g., gender climate vulnerability, access to gender data, gender just transitions, and how is this financed? • Which organisations are responsible or contracted to carry out gender climate 'research and systematic observation' and by whom? <p>Review and reflect in group</p>
12:20 – 12:30	<p>Summary and closure of the meeting</p>
