# Information necessary to track progress in the implementation and achievement of NDC

## Decision 18/CMA.1 – Annex Section III

- A. National circumstances and institutional arrangements
- B. Description of a Party's NDC, including updates
- C. Information necessary to track progress in the implementation and achievement of NDC
- D. Mitigation policies and measures ...
- E. Projections of GHG emissions and removals, as applicable
- F. Other information

# Indicators for NDC tracking

# PAMs

## INFORMATION THAT PARTIES “SHALL” PROVIDE IN A TABULAR FORMAT<sup>84</sup>

## INFORMATION THAT PARTIES “MAY” PROVIDE<sup>85</sup>

Name	Costs
Description	Non-GHG mitigation benefits
Objectives	How the mitigation actions interact with each other, as appropriate
Type of instrument (regulatory, economic or other)	
Status (planned, adopted or implemented)	
Sector(s) affected (energy, transport, industrial processes and product use, agriculture, LULUCF, waste management or other)	
Gases affected	
Start year of implementation	
Implementing entity or entities	

UNFCCC 2023: [Technical handbook for developing country Parties on preparing for implementation of the enhanced transparency framework under the Paris Agreement](#)

# Projections

## Scenarios for projections of greenhouse gas emissions and removals

### With measures

Encompasses currently implemented and adopted policies and measures ("shall requirement")

### With additional measures

Encompasses implemented, adopted and planned policies and measures ("may requirement")

### Without measures

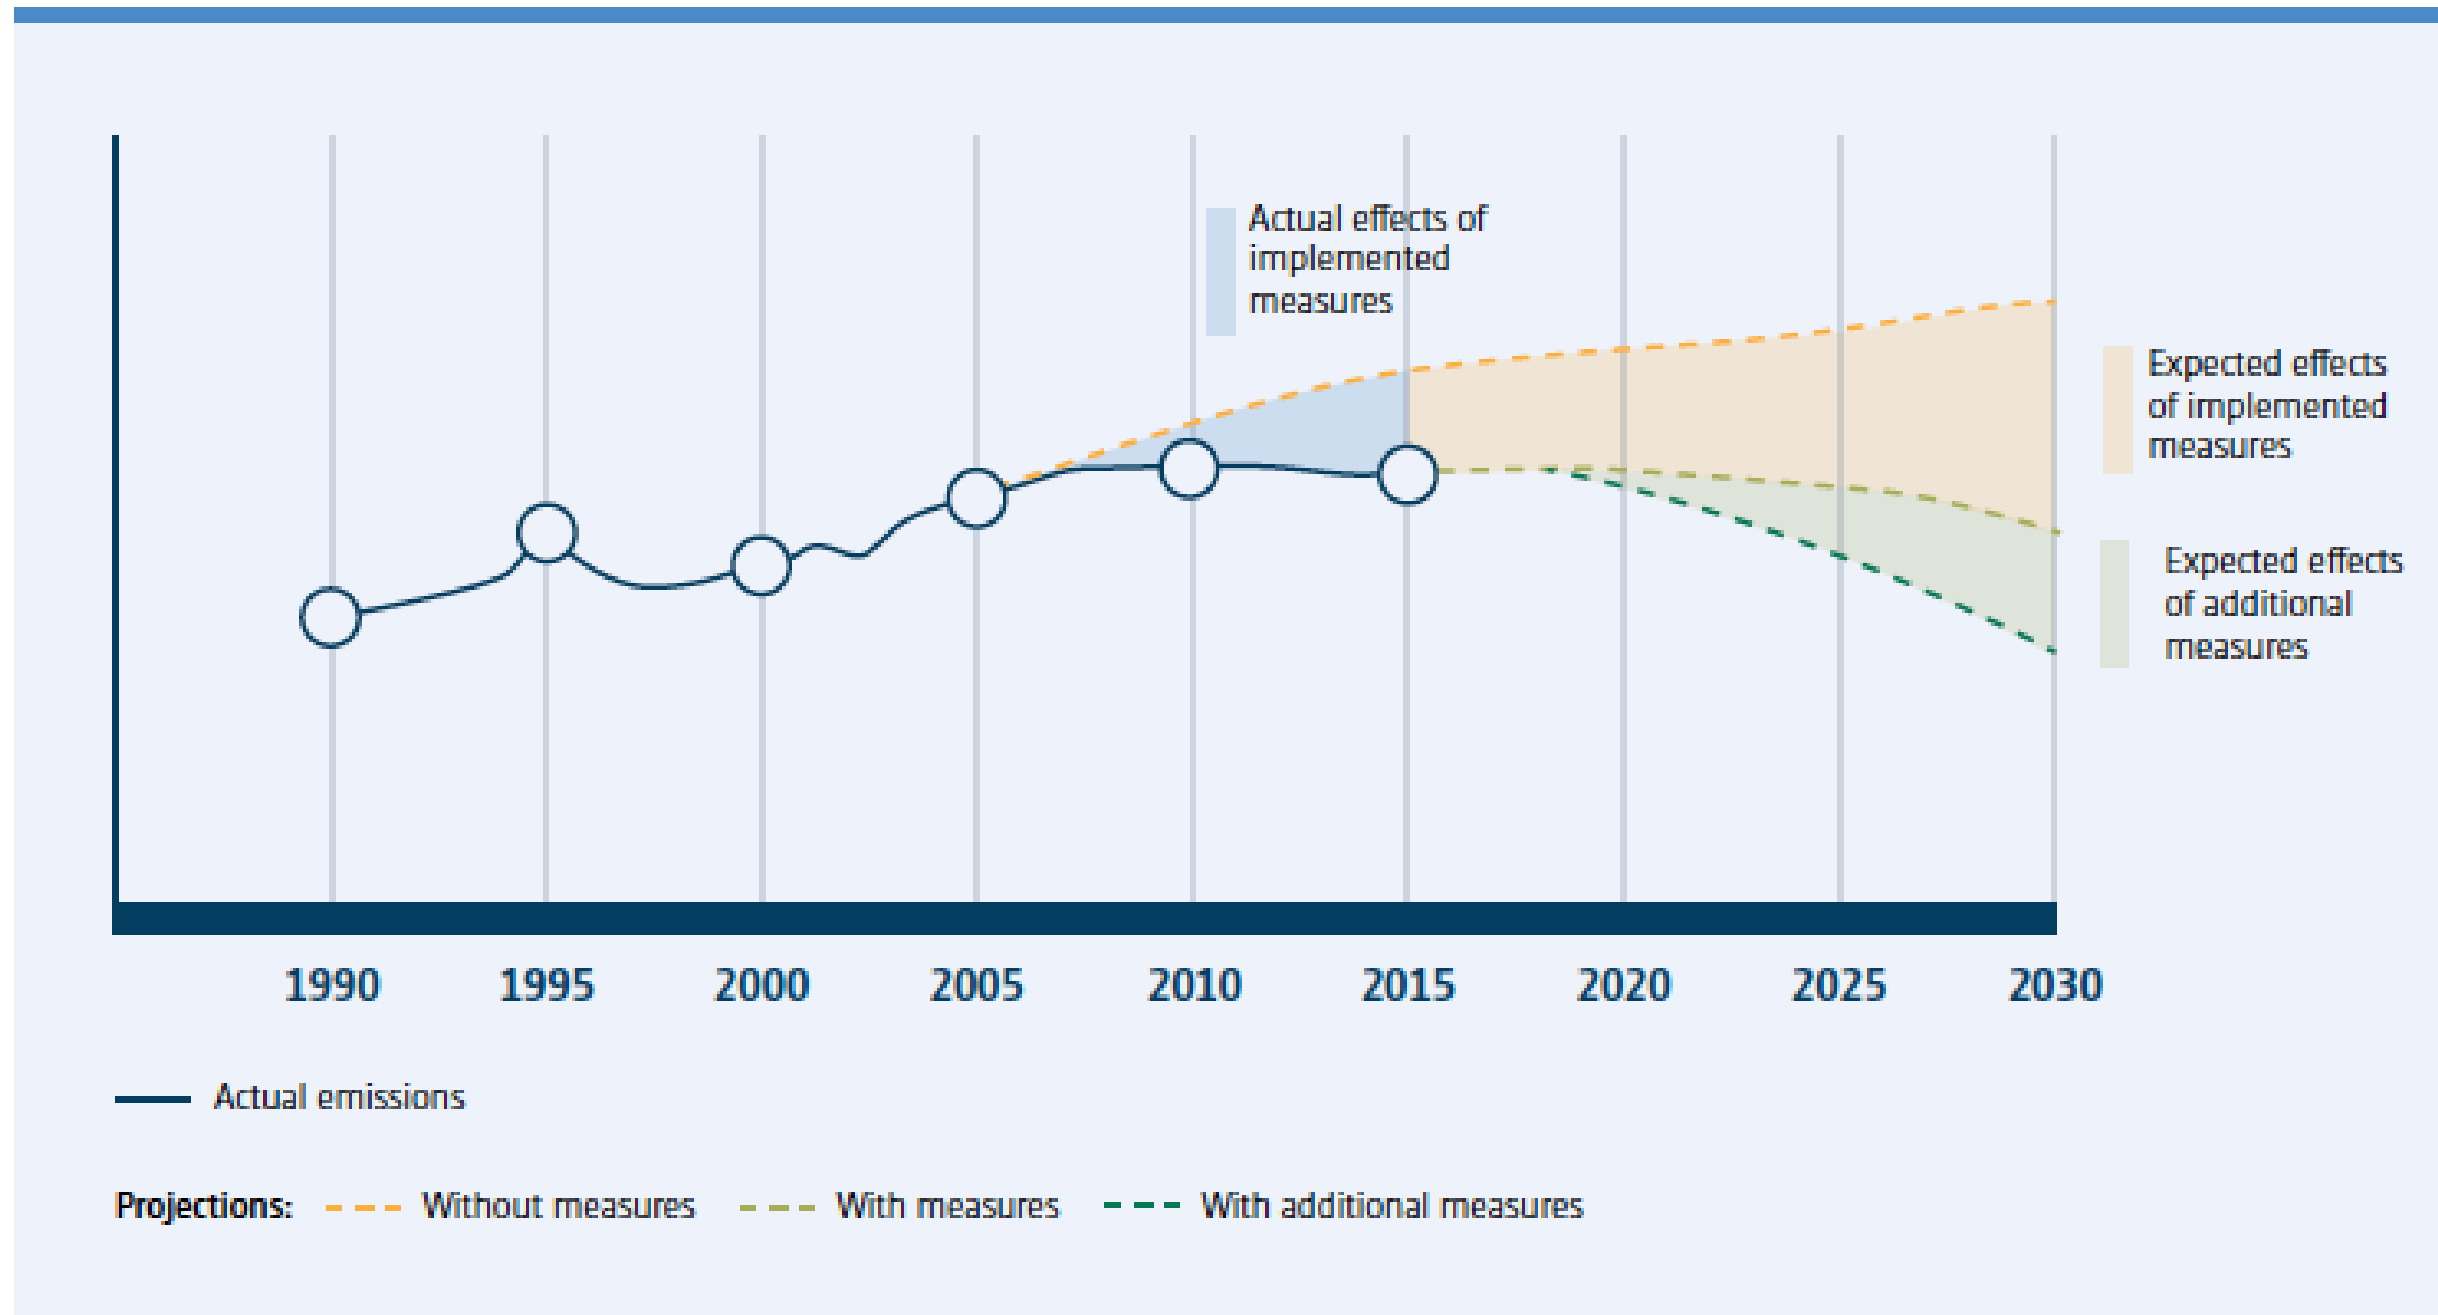

If provided, it excludes all policies and measures implemented, adopted and planned after the year chosen as the starting points for the projections ("may requirement")

UNFCCC 2023: [Technical handbook for developing country Parties on preparing for implementation of the enhanced transparency framework under the Paris Agreement](#)

# Projections (2)

Hypothetical projections of greenhouse gas emissions and removals under different scenarios

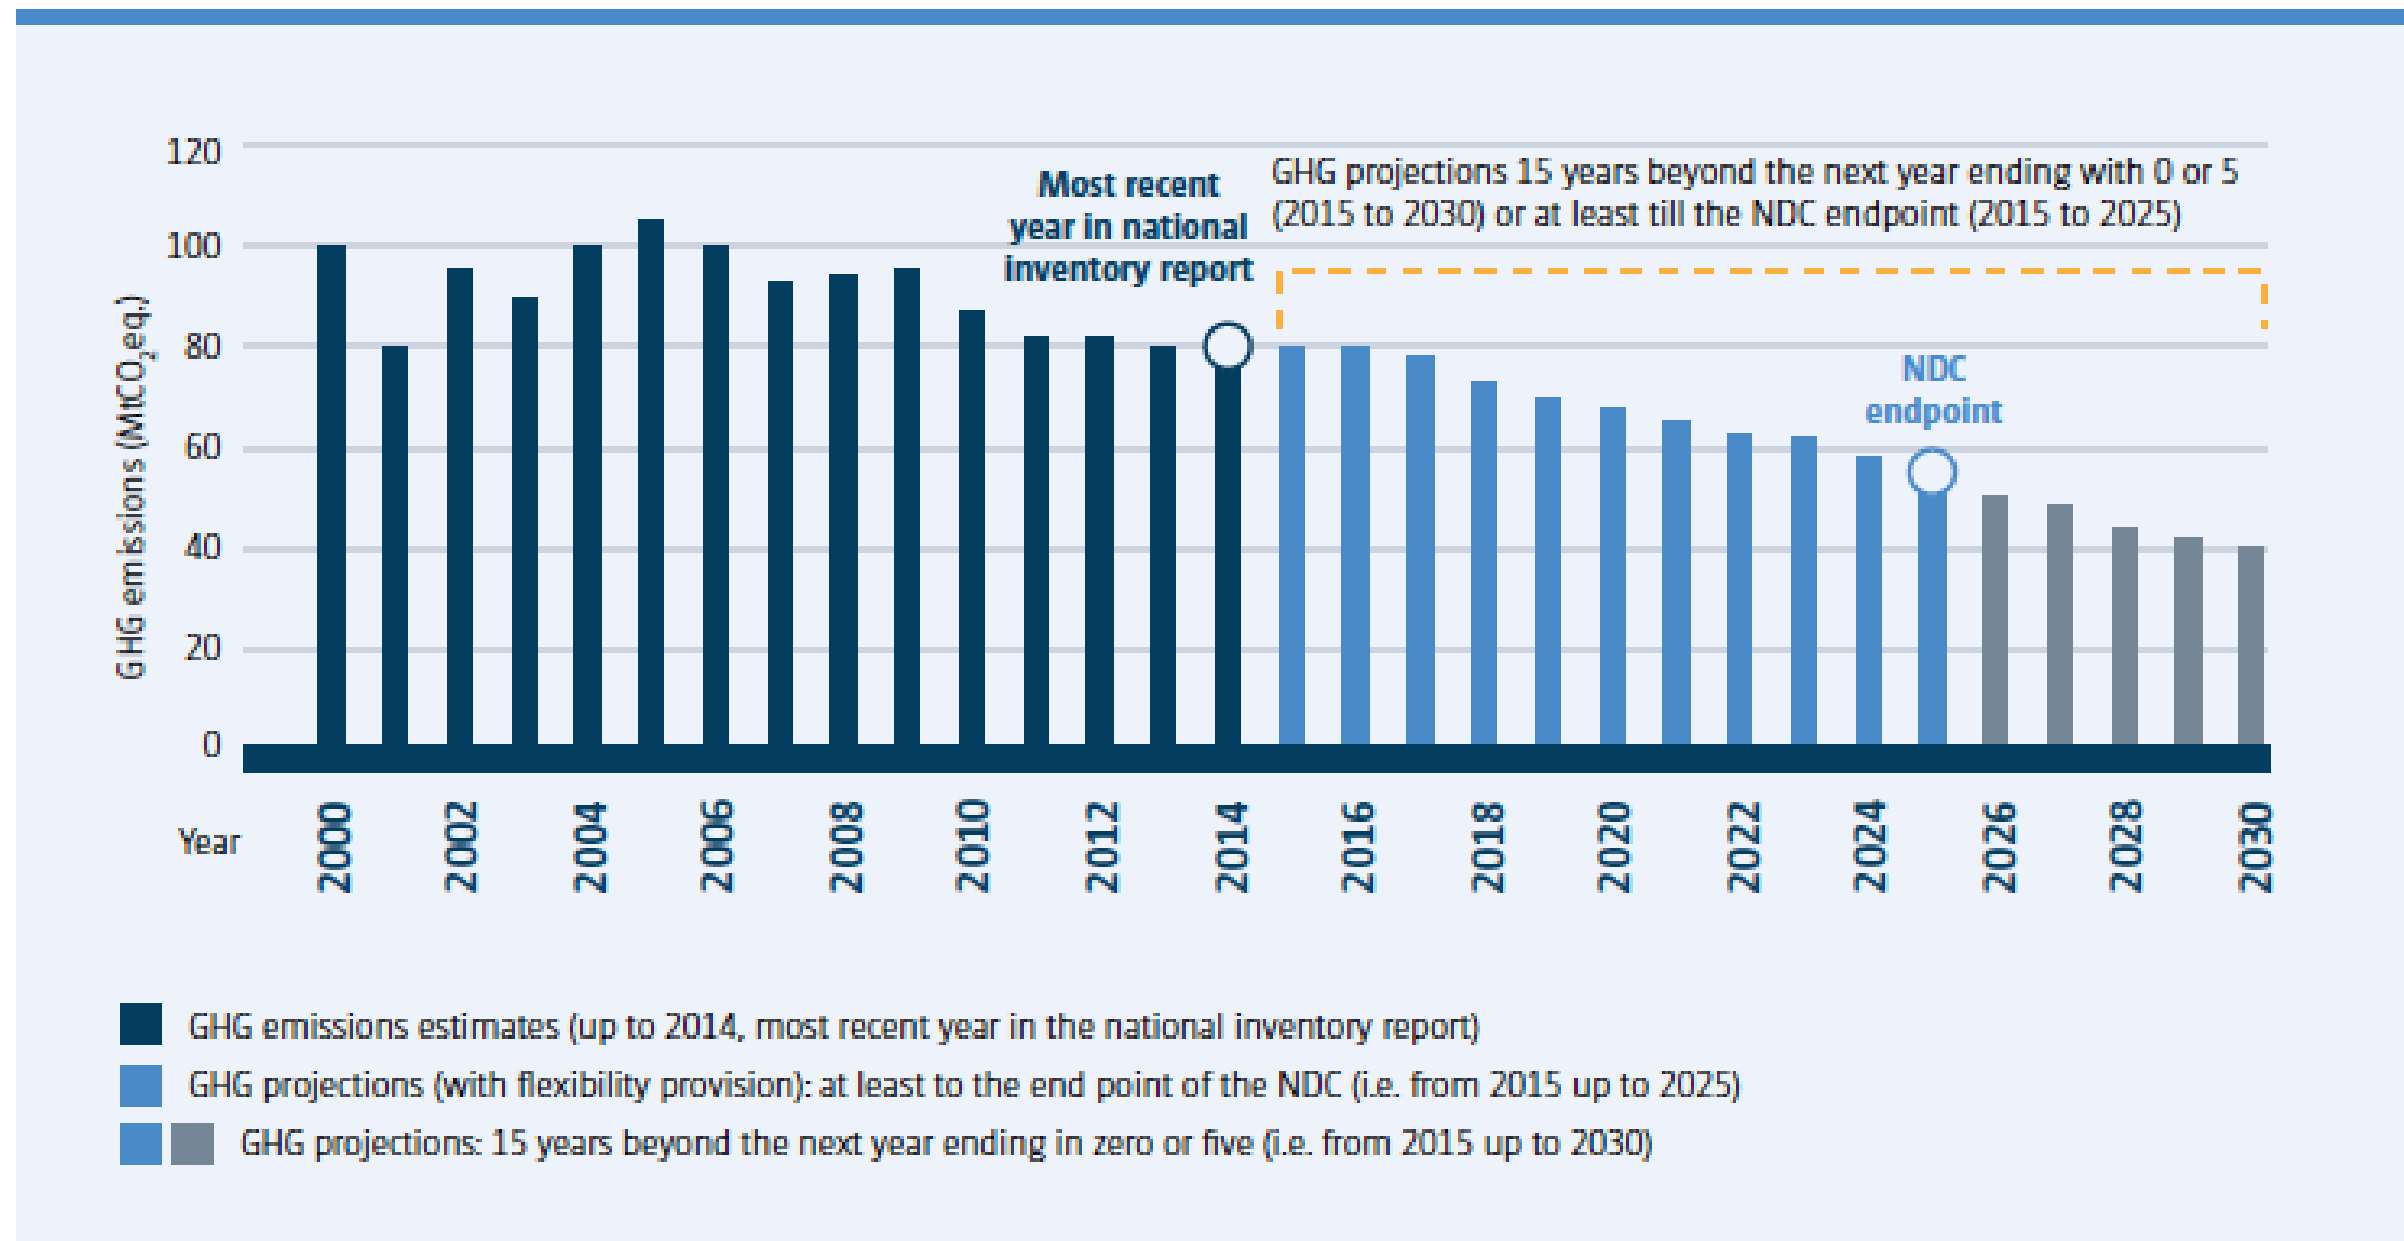

UNFCCC 2023: [Technical handbook for developing country Parties on preparing for implementation of the enhanced transparency framework under the Paris Agreement](#)

# Projections (3)

Example of time period for projections of all greenhouse gas emissions and removals, as applicable, including with application of the flexibility provision

UNFCCC 2023: [Technical handbook for developing country Parties on preparing for implementation of the enhanced transparency framework under the Paris Agreement](#)

# Flexibilities for NDC tracking

REFERENCE IN THE MPGS (ANNEX TO DECISION 18/CMA.1)	PROVISION IN THE MPGS	FLEXIBILITY PROVISION FOR THOSE DEVELOPING COUNTRY PARTIES THAT NEED IT IN THE LIGHT OF THEIR CAPACITIES
<b>Paragraph 85</b> <i>Expected and achieved GHG emission reductions for PAMs</i>	Each Party shall provide, to the extent possible, estimates of expected and achieved GHG emission reductions of its PAMs	Instead encouraged to report such information
<b>Paragraph 92</b> <i>GHG emission and removals projections</i>	Each Party shall report projections	Instead encouraged to report such projections
<b>Paragraph 95</b> <i>Projections extension</i>	Projections shall begin from the most recent year in the Party's national inventory report and extend at least 15 years beyond the next year ending in zero or five	May extend their projections at least to the end point of their NDC
<b>Paragraph 102</b> <i>Projections methodology or coverage</i>	See paragraphs 93 through 101 of the annex to decision 18/CMA.1	May report using a less detailed methodology or coverage

UNFCCC 2023: [Technical handbook for developing country Parties on preparing for implementation of the enhanced transparency framework under the Paris Agreement](#)

# CTF tables for information to track progress

## Decision 5/CMA.3 – Annex II

### 1. Structured summary: Description of selected indicators

<i>Indicator(s) selected to track progress<sup>a</sup></i>	<i>Description</i>
{Indicator}	Information for the reference point(s), level(s), baseline(s), base year(s) or starting point(s), as appropriate <sup>b</sup>
	Updates in accordance with any recalculation of the GHG inventory, as appropriate <sup>b</sup>
	Relation to NDC <sup>c</sup>

*Notes:* (1) Pursuant to para. 79 of the MPGs, each Party shall report the information referred to in paras. 65–78 of the MPGs in a narrative and common tabular format, as applicable. (2) A Party may amend the reporting format (e.g. Excel file) to remove specific rows in this table if the information to be provided in those rows is not applicable to the Party’s NDC under Article 4 of the Paris Agreement, in accordance with the MPGs. (3) The Party could add rows for each additional selected indicator and related information.

<sup>a</sup> Each Party shall identify the indicator(s) that it has selected to track progress of its NDC (para. 65 of the MPGs).

<sup>b</sup> Each Party shall provide the information for each selected indicator for the reference point(s), level(s), baseline(s), base year(s) or starting point(s), and shall update the information in accordance with any recalculation of the GHG inventory, as appropriate (para. 67 of the MPGs).

<sup>c</sup> Each Party shall describe for each indicator identified how it is related to its NDC (para. 76(a) of the MPGs).
