

Transparency and NDC 3.0

Informing about
opportunities for support
in NDC 3.0

Webinar

Linking BTRs process and NDCs update

- 1 Evaluating NDC implementation (based on the tracking of progress)
- 2 GHG projections and vulnerability assessments
- 3 Assessment of policies and measures for their GHG and adaptation impacts
- 4 Assessment of sustainable development impacts of P&Ms and determination of just transition needs
- 5 Climate finance transparency

ICAT is prioritizing support to countries for their NDC 3.0 update, including for:

- GHG projections
- Policy assessments (GHG and SD)
- Just Transition Monitoring
- Climate Finance Transparency
- NDC tracking frameworks

ICAT tools to support NDC 3.0 update

- 1 Evaluating NDC implementation (based on the tracking of progress)
- 2 GHG projections and vulnerability assessments
- 3 Assessment of policies and measures for their GHG and adaptation impacts
- 4 Assessment of sustainable development impacts of P&Ms and determination of just transition needs
- 5 Climate finance transparency
