Overview

Mandate: Ministry of Tourism and Environment

Key legislation: Climate Emergency Act (Law No. 9/2021)

Other Relevant Legislations:

- Maldives Energy Act (18/2021)
- Waste Management Act (24/2022)
- Utility Regulatory Authority Act (26/2020)
- Maldives Statistics Act (Act no: 16/2021)

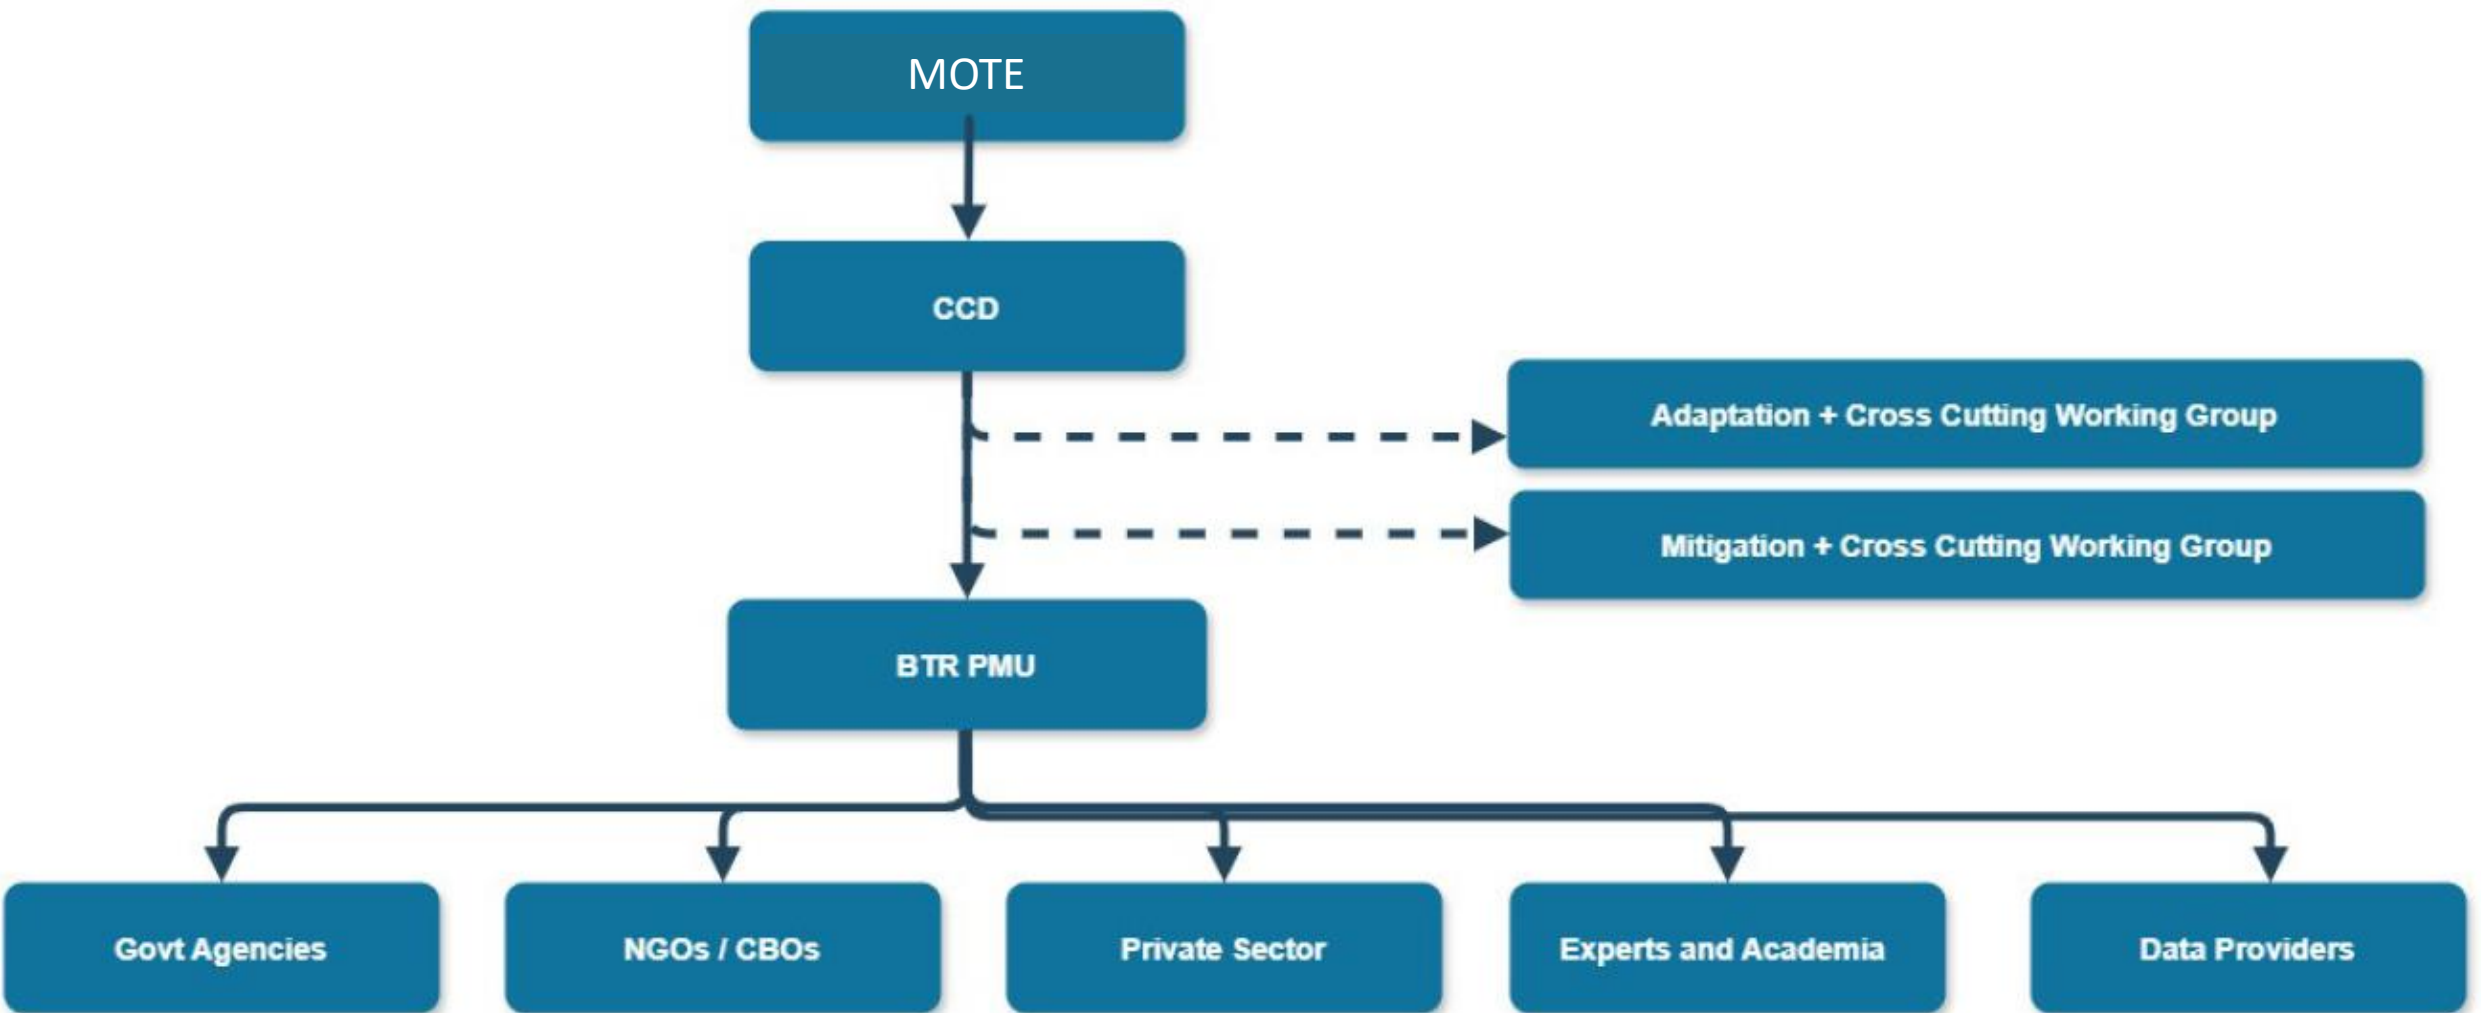

Ministry of Climate Change,
Environment and Energy

MALDIVES' FIRST BIENNIAL TRANSPARENCY REPORT

TO THE UNITED NATIONS FRAMEWORK CONVENTION ON CLIMATE
CHANGE (UNFCCC) UNDER THE PARIS AGREEMENT

Institutional Arrangements

Technical Areas of Reporting and Specific Challenges

GHG Inventory

- Use of new reporting tool
- IPCC categories vs CRT categories

NDC Tracking

- Use of new reporting tool
- Selecting indicators

Adaptation

- Many sectors and diverse range of information

Support Needed and Received

- Challenge in quantifying support needed

Challenges in preparation of the first BTR

- Capacity Constraints and Institutional Memory
- Limited Financial and Human Resources
- Limited Institutionalized Data Collection Procedures and Data Culture
- Geographical Dispersion and Stakeholder Engagement
- Short Duration for Report Compilation and Validation

Lessons learnt for continued success

- *Continuous capacity building* and orientation of team members on ETF tools, and understanding the MPGs
- Work with line ministries and national statistics offices to *use existing data systems and work to improve them.*
- *Long term/Permanent team* for ETF reporting requirements
- *Periodic and timely support* is essential for a more *sustainable and structured approach* to climate reporting.

Thank You
