
Webinar on Long-term Low Emission Development Strategies (LT-LEDS)

Date: 2 July 2019

Time: 11:00 am – 12:30 pm India Time/
12:30 pm – 2:00 pm Bangkok Time

Please register in the below link to join the webinar at the specified time and date:

<https://attendee.gotowebinar.com/register/3776541366139307276>

After registering, you will receive a confirmation email containing information about joining the webinar.

This webinar will focus on building audience understanding of the benefits and basic principles underlying LT-LEDS processes. The key learning *objectives* for participants are that they will feel increased confidence in the ‘why’ and ‘how’ of developing a LTS for their national context, and a clearer understanding of the international technical support available to them. A key *outcome* from participation is that participants will be motivated to progress to the next stage of more detailed exploration in preparation of developing a LTS (e.g. ‘readiness assessment’, follow up country specific engagement on LTS development, joining supportive communities of practice). The webinar will have a specific focus on governance aspects related to LTS and will include interactive discussion with participants. Please review the discussion questions below and be prepared to share experiences and lessons from your country. **The webinar is organized by the Asia LEDS Partnership, LEDS Global Partnership and Climate Works Australia (CWA).**

Session Agenda

- Introduction to ALP/LEDS GP and its services – Anandhan, Asia LEDS Partnership (5 minutes)
- Introduction to the webinar – ClimateWorks Australia (5 minutes)
- LTS background and overview including benefits, business case and key issues/lessons related to governance – 2050 Pathways Platform (10 minutes)
- LTS stages and approach based on recent work in Pacific and south east Asia with a focus on governance - Climate Works Australia (10 minutes)
- Country presentation on LTS work with a focus on governance issues – India based on Deep Decarbonization Pathways Project (DDPP) work (15 minutes)
- Facilitated discussion on LTS needs and interests in the Asia region – Facilitated by CWA - 45 minutes

Instructions for participants

We have provided a set of questions below to facilitate peer-learning and discussion during this session. Please engage with your colleagues at work ahead of the webinar and come prepared to respond to these questions. If you would like to submit your responses ahead of time, please send your responses to [ALP Secretariat](#).

- What are the key lessons you can share on building good cross-ministerial buy-in for long term planning processes (e.g. NDCs, green growth strategies, LEDS etc)?
- How has climate action been effectively linked to sustainable development to significantly increase ambition?
- Where are the key gaps you're seeing in terms of capacity to deliver a LTS in your country? What could help address this?
